SIMPLE WAYS TO RELIEVE Stress & Anxiety

Exercising regularly is good for both your physical and mental health. Just 30 minutes a day is all it takes to see smaller amounts of cortisol (the stress hormone) in your blood. Research has shown that people who exercise for 30 minutes a day have less stress and anxiety.

Using lavender oil or burning a scented candle can reduce feelings of anxiety and stress. Try this if you're having trouble falling asleep.

Lean on friends, family, or support groups. They will help you with your feelings and concerns while also giving you perspective.

Reflect on what makes you happy. Reading, baking, painting, listening to your favorite song, watching TV, going to the gym, taking a walk, and doing anything you love to help reduce stress.

CLEANING PRODUCT Clean Ingredients

When it comes to buying cleaning products, look for products that list natural ingredients and avoid harsh chemicals and environmentally friendly ingredients. Here are some tips:

Read Labels: Look for products that list natural ingredients like vinegar, baking soda, and lemon juice. Avoid products with harsh chemicals like bleach, ammonia, and phosphates.

Use Natural Ingredients: Many cleaning products are made from natural ingredients like vinegar, baking soda, and lemon juice. These are safe and effective.

Choose Eco-Friendly: Look for products that are labeled as eco-friendly or green. These products are made from natural ingredients and are safe for the environment.

Use Less Product: Many cleaning products are sold in large containers. Consider buying smaller containers or refills to reduce waste.

Read Reviews: Look for products that have good reviews from other customers. This can help you choose a product that is safe and effective.

Students are realizing the need to become more autonomous, parents are having to become more present and teachers are assuming new roles in virtual education. Although this new era of education is marked by innovation at all levels, most of these changes have not been thoroughly planned or structured, thus creating a difficult experience for all the educational stakeholders. *Impact of Digital Transformation in Teacher Training Models* conducts a critical discussion on teacher preparedness in the digital transformation of teaching practices. It promotes practitioner reflections on the role of institutional policies, teacher digital literacy, the digital divide and how the ongoing digital transformation of society will induce the need for a paradigm shift in teacher training models. Covering topics such as emergency remote education, emerging pedagogies and massive open online courses, this book is an essential resource for policymakers, government officials, education administration, pre-service teachers, educators, researchers and academicians.
