Klein,J. Michael Spector,Barbara L. Grabowski,Ileana de la Teja,2004-10-01 This edition is not just a rehash of old albeit classic and still important stuff Instead it provides a fresh perspective on a topic of perennial interest for those working in the field that has been variously called training and development human resource development performance technology and workplace learning and performance The fresh perspective takes into consideration two additional instructor settings to the traditional face to face environments that most instructors and trainers know that is online and blended settings These settings are of course becoming more critical as instruction moves beyond classroom settings to include virtual and combinations of classroom and other media delivery methods The ibstpi instructor competencies match up well to Mapping the Future Bernthal Colteryahn Davis Naughton Rothwell Wellins 2004 the current ASTD competency study of the field now known as Workplace Learning and Performance WLP and previously known as Training and Development T D WLP is more than a new name for an old subject and represents a fundamental paradigm shift in what it means to be a professional in the field formerly known as training WLP is all about getting improved performance and therefore improved results in organizational settings through planned and unplanned learning interventions Instruction is thus a means to an end and not an end in itself The ibstpi instructor competencies dovetail well with that philosophy *Handbook on Quality and Standardisation in E-Learning* Ulf-Daniel Ehlers,Jan Martin Pawlowski,2006-10-11 Quality and standardisation in e learning have become crucial success factors for organisations in learning education and training E Learning has changed from an early adopter stage to an integrated part of learning scenarios leading to major changes in educational organisations towards quality orientation For building a knowledge society it is critically important to thoroughly understand quality and standards in e learning The

handbook provides a cross national perspective on these issues and draws a clear picture of the situation in quality development and standardisation It covers topics of a rather foundational nature in quality and standardisation research as well as descriptions of quality approaches instruments standards experiences and best practices The Handbook is directed to learners professionals researchers and policy makers people creating the next generation of learning
