ALIENS ADORED: RAEI'S UFO RELIGION. SUSAN J. PALMER, Heaven on Earth Richard Landes, 2011-08-04 A comprehensive examination of millennialism the belief that the grandest events of history and the cosmos will occur soon and suddenly whether as a religious d nouement with the coming of the Last Days or as a final social solution to resolve the human predicament forever Through analysis of diverse cases throughout history Richard Landes demonstrates that millennialism has been deliberately downplayed and even ignored by historians and shows that millenarian beliefs have played a role in many supposedly secular events movements and periods including modernity **The Bloomsbury Handbook of Apocalypticism and Millennialism** Tristan Sturm, Andrew Crome, 2025-10-16 In an age shadowed by pandemics climate catastrophe authoritarian resurgence and existential technological threats The Bloomsbury Handbook of Apocalypticism and Millennialism offers a timely and indispensable exploration of how societies make sense of their Ends and their hoped for new beginnings This ground breaking volume gathers leading scholars to trace the evolution meanings and enduring potency of apocalyptic and millennial ideas across religious secular and cultural landscapes From ancient revelatory texts to contemporary political movements and popular culture the book dissects how these concepts function not just as prophecies of doom but as frameworks for resistance renewal and transformation Through meticulous historical analysis and bold theoretical interventions the contributors interrogate core debates from the distinctions between apocalypticism and millennialism to their radical entanglements with justice space temporality and morality This volume dismantles simplistic portrayals of End Times thinking revealing instead its nuanced world shaping logic Whether manifest in religious movements or global politics apocalypse is no longer a marginal concern it is the defining hermeneutic of our times Scholarly provocative and urgent this Handbook is essential reading for researchers students and anyone seeking to understand how humanity envisions and enacts its endings and potentially new beginnings *UFOs, Conspiracy Theories and the New Age* David G. Robertson, 2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies *UFOs Conspiracy Theories and the New Age* is an innovative application of discourse analysis to the study of present day alternative religion **Extraterrestrials and the American Zeitgeist** Aaron John

Gulyas,2013-05-20 Since the 1950s men and women around the world have claimed to have had contact with human like visitors from space This book explores how the contactee subculture has critiqued political social and cultural trends in the United States Europe and elsewhere Not merely quaint relics of the 1950s Atomic Age contactees have continued their messages of transformation into the 21st century Regardless of whether these alleged contacts took the form of physical meetings or channeled paranormal psychic communications or whether they actually happened at all contactees have provided a consistently relevant source of commentary on this world and beyond Alien Worlds Diana

Tumminia,2022-09-01 This intriguing collection of essays presents reflections upon the birth proliferation enduring appeal and future of extraterrestrial mythology Highly respected authors and researchers representing the varied and sometimes competing perspectives of ufology and the sociology of religion provide a fascinating and instructive voyage into the social worlds of UFOs abductees and contactees Reports of aliens and the changing nature of abduction experience even its sexual dimension are explored in relation to literature cultural practices and ideology The influence of abduction therapy and support groups is considered as are new religious movements with extraterrestrial themes Alien Worlds will enlighten anyone wanting to understand what and how the academic world thinks about UFOs contactee groups and alien phenomena

Intersections of Religion and Astronomy Chris Corbally,Darry Dinell,Aaron Ricker,2020-11-01 This volume examines the way in which cultural ideas about the heavens shape religious ideas and are shaped by them in return Our approaches to cosmology have a profound effect on the way in which we each deal with religious questions and participate in the imaginative work of public and private world building Employing an interdisciplinary team of international scholars each chapter shows how religion and cosmology interrelate and matter for real people Historical and contemporary case studies are included to demonstrate the lived reality of a variety of faith traditions and their interactions with the cosmos This breadth of scope allows readers to get a unique overview of how religion science and our view of space have and will continue to impact our worldviews Offering a comprehensive exploration of humanity and its relationship with cosmology this book will be an important reference for scholars of Religion and Science Religion and Culture Interreligious Dialogue and Theology as well as those interested in Science and Culture and Public Education The Re-Enchantment of the West, Vol 2

Christopher Partridge,2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture *UFO Religion* Gregory L. Reece,2007-08-20 Lines laid across the plain near the Peruvian site of Nazca have been explained as ancient roads or features of a long forgotten religious calendar So why did Erich von Daniken interpret these markings as the contours of a huge galactic spaceport In his assessment of the uncanny and frequently eerie world of UFO logy Gregory L Reece travels deep into a mindset which believes that the gods of mythology were really visitors from the stars Venturing into the Mojave Desert to watch the night skies for flying saucers

exploring Nevada's top secret installation Area 51 and visiting Roswell famous site of a supposed saucer crash in 1947 the author's quest for the truth brings him more than he bargained for He has his atomic structure recharged in a machine supposedly designed by extraterrestrial technology encounters a whole galaxy of alien life forms and meets those who claim themselves to have been abducted by UFOs Along the way he tries to make sense both of the sinister Men in Black and of lethal Tall Whites deadly aliens who liquidate human beings without mercy What is it about flying saucer culture that speaks to people with an apparently religious intensity and fervour For those looking for the answers UFO Religion is the definitive guide and handbook to one of the most extraordinary and compelling cults of our times **Zaraguá** Juan Carden, 2012-08-24

Zaragua is the first book of a ten novel saga which takes place over the course of the one thousand years and involves protagonists that are born live and die without ever ceasing to be immortal In 1492 Juan and Manuel come to the New World with Christopher Columbus but immediately leave the conquistadors to find love in the Caribbean and dedicate their lives to saving the civilizations on the extraordinary continent that offers them the passion Europe was never able to The second part of this historical novel recounts the epic story of Juan and Hernn two brothers who come to the Yucatan Peninsula in search of their destinies but who set off in very different directions The elder together with his native wife tries to stop the catechization and annihilation of the Indians while the younger only seeks power and fame Through the narration their passion ambition filial love and psychological conflicts become evident as do the differences in the protagonists personalities and emotions The main character is immortal who is born in every life in a different body retaining their cognitive ability His destiny is to find his companion that was created with him at the beginning of time and also to help the dispossessed Zaragu developed in America during the first period of the colonization The characters live and dream in a different world where nothing is as it was in Europe trying to create a society where their offspring will not face every day war domination and abuse But love poetry and fantasy are those who succeed and give character to the characters The protagonist is the older brother of Hernn Corts who is separated at an early age While the youngest try to conquer an empire the oldest tries to protect the natives and carry the New World to a different course In this novel we relive the history of a brutal century bright and wild where passions overflow when hitting two civilizations with different moral precepts dissimilar technology superficially antagonistic religions and customs In each chapter there is a new adventure a new dilemma a new anguish and new hope In covering the story we realize that genius is dormant in every culture needing a little encouragement to be awakened We learn that what is ethical for one is immoral to another We realize that in our distant past we were all wild idolaters cannibals idealistic martyrs and executioners
