A La Luz Del Trabajo:

Salud Y Seguridad en El Trabajo Ryan Chinchilla Sibaja, 2002 **Seguridad en el trabajo**, 2007 **El trabajo transfigurado** Fernando Díez Rodríguez, 2011-11-28 La història dels discursos del treball troba en la primera meitat del segle XIX un temps particularment fecund i suggestiu. En l'Europa del capitalisme liberal clàssic i de la primera revolució industrial assistim a una veritable eclosió de llenguatges del treball que destaquen pel seu esforç analític i ric per l'amplitud de les diferències que els separen per la varietat dels aspectes laborals que exploren i per tant com han aportat a la forma com s'ha entès i encara entenem el treball. Un nou relat sobre la complexa formació dels discursos moderns del treball en el que pot considerar-se el seu segon cicle històric. El treball assalariat dels economistes clàssics post-smithians caracteritzat pel rigor ombrívol de la seua figura s'la incitació original d'una sèrie de respostes reactives i proactives, alhora que configuren noves propostes caracteritzades per la modernitat dels seus trets constitutius i la capacitat per a promoure llenguatges laborals de profund sentit i significat i en alguns casos d'important repercussió social. L'autor ens proposa set figures del treball en què es resumeix la vasta tasca argumentativa i rica duta a terme en diferents països europeus entre la Revolució francesa i el final del cicle revolucionari de 1848. Les set componen un ambiciós fresc en què ressalta la força i la suggestió de cada una de les figures així com aquells trets significatius que només revelen les matisades relacions que poden establir-se hi. **El trabajo transfigurado** proposa al lector una nova comprensió històrica de les imatges fonamentals del treball pròpies de la contemporaneïtat tal com van sorgir en una poca d'intensa polèmica sobre el que succeïa amb el treball i els treballadors i el que el futur immediat els tenia reservat.
