Canadiana , 1988-05 **Claims and Speculations** Janet Floyd, 2012-11 Janet Floyd American studies King s College London UK looks at how gold rush settings have been reflected in American high and popular arts and what these works have to say about US cultures of miners artists writers and readers This study looks at both popular and literary books set in and responding to the metal strikes in the American West between 1865 and 1905 Floyd also brings in visual art as well as

related mining cultures such as Australian mate communities but restricts this study to works produced in the gold rush era. Though it is written as a work of academic scholarship the book's prose is as skillful as many works of popular nonfiction. For this reason it will appeal to a readership beyond special interest scholars in the subject. As a writer on literature she cautions against making any theoretical argument that denies the range of human beings and motives in the American West. She explores the complex and multifaceted situations reflected both by gold rush communities and by the works of their own era that used them as their setting. Her own analyses reflect but cannot be reduced to a background in women's studies. Throughout the author considers the idea that the people, the art and the attitudes of the frontier's toughest places are more slippery than either liberal or conservative scholars have liked to imagine. Recommended both for its prose and its interest in the actual lives and cultures reflected in literary studies. Annotation 2013 Book News Inc Portland OR booknews.com

Frontier Spirit Jennifer Duncan, 2010-08-20 She may have been holding a gun or an axe or her hiked up skirts but she was there in the Klondike of the Gold Rush. And her decision to venture everything on the dream of northern gold was in every way bolder and riskier than any man's. In *Frontier Spirit* Jennifer Duncan celebrates the lives of women who in defiance of traditional expectations left their homes, their families and their professions to make the arduous journey through a punishing climate and unfamiliar wilderness to seek their fortunes in the Klondike. The story of women in the Klondike begins with the strong and knowledgeable women who were there before the race for riches began. First Nations women like Shaaw Tl'a whose experience and traditional skills were critical to the survival of her white prospector husband and ultimately to the discovery that sparked the Gold Rush. The white women who joined the Klondike Stampede came from all walks of life: rich and poor, educated and illiterate, single and married. Wealthy socialite Martha Black left her world of comfort to pursue a career as a miner, mill manager and politician on the northern frontier. Belinda Mulrooney, an Irish farm girl, arrived in Dawson with a quarter to her name but used her business acumen and canny resourcefulness to turn the shantytown into a city and herself into its richest woman. And then there's Kate Rockwell, a working class girl from Kansas City whose thirst for fame and adulation led her over the treacherous waters of the Whitehorse rapids and fired her ascent to the title of Queen of the Klondike. Duncan has spent the last five years experiencing Dawson City in all its seasons and like the women who came before her she has fallen under the spell of the North, coming to love its wilderness, its challenges and its rugged glory. With remarkable empathy, imagination and personal insight, Duncan creates an engrossing portrait of the splendour of the Yukon, breathing life into the stories of the daring and diverse women of the Klondike and the grandeur of the adventurers who gambled everything to find their fortunes there.

Gamblers and Dreamers Charlene Porsild, 2011-11-01 The popular image of the Klondike is of a rush of white male adventurers who overcame great physical and geographical obstacles in their quest for gold. Young white single American men carried forward the ideals and structures of the western frontier. It was a man's world made respectable only after the turn of the century with the arrival of white middle class women who

miraculously swept out the corners of dirt and vice and civilized the society These impressions endure despite recent attempts to correct them Gamblers and Dreamers tackles some of the myths about the history of the North in the era of the gold rush Though many inhabitants came and went Charlene Porsild focuses on the concept of community commitment to show that many put down roots This in depth study of Dawson City at the turn of the century reveals that the city had a cosmopolitan character a stratified society and a definite permanence It examines the lives of First Nations peoples miners and other labourers professionals merchants dance hall performers and sex trade workers providing fascinating detail about those who left homes and jobs to strike it rich in the last great gold rush of the nineteenth century In the process Gamblers and Dreamers puts a human face on this compelling period of history *AB Bookman's Weekly* ,1987-09 *Alaska Native Magazine* ,1985
