In *Digital Nomad Nation*, Carlos Grider explores how millions are unknowingly creating the first digital country without borders, governments, or fixed territories, one that exists entirely online yet spans the globe. And what does it mean for the future of work, travel, and global society? This groundbreaking investigation explores how millions are leaving traditional careers behind to design their dream lives on their own terms. Blending sociological analysis, travel memoir, and cultural exploration, Grider reveals the 1997 prophecy that predicted the rise of digital nomads.
