Bargaining With The State From Afar:

Bargaining with the State from Afar Eileen P. Scully, 2001 In the early 1990s when organizations representing the 2.6 million U.S. nationals living abroad appealed to Congress for their own non-voting representative, the response of one Senator was to dismiss these moans of the mink-swathed Americans abroad. However, the image of a life of luxury abroad is usually a harsher reality complicated by income taxes, military duty, and legal jurisdiction. What exactly is the obligation of a state toward citizens who live outside its borders? *Bargaining with the State from Afar* traces the relationship between the United States federal government and sojourning Americans living in the colonial enclaves of pre-World War II China. This group of Americans was not subject to Chinese law but rather to an amalgam of laws borrowed from the District of Columbia and other territorial codes, as well as to local ordinances enacted by foreigners themselves. Scully explores U.S. government efforts to police this anomalous zone in the American policy and places the struggle between federal officials and sojourning U.S. nationals in the larger context of changing international law and modern citizenship regimes. She argues that the American experience with extraterritorial justice in China offers an important new vantage point from which to examine a singular area in the history of modern states. This case study of U.S. consular jurisdiction reveals the legal, political, and cultural process through which modern states have struggled to govern citizens outside their borders. Scully's examination of the U.S. Court for China is one of the first serious analysis of this anomalous institution.

Consuls and the Institutions of Global Capitalism, 1783-1914 Ferry de Goey, 2015-10-06 The nineteenth century saw the expansion of Western influence across the globe. A consular presence in a new territory had numerous advantages for business and trade. Using specific case studies, de Goey demonstrates the key role played by consuls in the rise of the global economy.

Haunted by Empire Ann Laura Stoler, 2006-05-05 *DIVA* groundbreaking interdisciplinary collection that rethinks the connection between the intimate and United States colonial and postcolonial histories. *Transnational Nation* Ian Tyrrell, 2015-04-23 The development of nationalism, movement of peoples, imperialism, industrialization, environmental change, and the struggle for equality are all key themes in the study of both U.S. history and world history. In this revised and updated new edition, Tyrrell explores the relationship between events and movements in the U.S. and wider world.

Treaty Ports in Modern China Robert Bickers, Isabella Jackson, 2016-05-20 This book presents a wide range of new research on the Chinese treaty ports, the key strategic places on China's coast where, in the late nineteenth and twentieth centuries, various foreign powers controlled through unequal treaties whole cities or parts of cities outside the jurisdiction of the Chinese authorities. Topics covered include land and how it was acquired, the flow of people, goods, and information, specific individuals and families who typify life in the treaty ports, and technical advances, exploration, and innovation in government.

With Sails Whitening Every Sea Brian Rouleau, 2015-05-06 Many Americans in the Early Republic era saw the seas as another field for national aggrandizement. With a merchant marine that competed against Britain for commercial supremacy and a whaling fleet that

circled the globe the United States sought a maritime empire to complement its territorial ambitions in North America In *With Sails Whitening Every Sea* Brian Rouleau argues that because of their ubiquity in foreign ports American sailors were the principal agents of overseas foreign relations in the early republic Their everyday encounters and more problematic interactions barroom brawling sexual escapades in port city bordellos and the performance of blackface minstrel shows shaped how the United States was perceived overseas Rouleau details both the mariners working class diplomacy and the anxieties such interactions inspired among federal authorities and missionary communities who saw the behavior of American sailors as mere debauchery Indiscriminate violence and licentious conduct they feared threatened both mercantile profit margins and the nation s reputation overseas As Rouleau chronicles the world s oceans and seaport spaces soon became a battleground over the terms by which American citizens would introduce themselves to the world But by the end of the Civil War seamen were no longer the nation s principal ambassadors Hordes of wealthy tourists had replaced seafarers and those privileged travelers moved through a world characterized by consolidated state and corporate authority Expanding nineteenth century America s master narrative beyond the water s edge *With Sails Whitening Every Sea* reveals the maritime networks that bound the Early Republic to the wider world *Foreign Affairs Research Papers Available* Foreign Affairs Research Documentation Center,1970 **Foreign Relations of the United States, 1949: The Far East: China** ,1976 *Foreign Relations of the United States, 1948: The Far East: China* ,1976 **Foreign Relations of the United States, 1948: The Far East and Australasia** ,1976
