Agency And Deontic Logic:

Agency and Deontic Logic John F. Horty, 2001-01-11 John Horty effectively develops deontic logic the logic of ethical concepts like obligation and permission against the background of a formal theory of agency He incorporates certain elements of decision theory to set out a new deontic account of what agents ought to do under various conditions over extended periods of time Offering a conceptual rather than technical emphasis Horty s framework allows a number of recent issues from moral theory to be set out clearly and discussed from a uniform point of view

Deontic Logic, Agency and Normative Systems Mark A. Brown, Jose Carmo, 2012-12-06 This volume presents a variety of papers bearing on the relation between deontic logics logics of action and normative systems i e systems of or about interacting agents computers human beings corporations etc whose behaviour is subject to ideal constraints that may not always be fulfilled in practice The papers range from theoretical studies of the logical and conceptual tools needed to studies of various applications The set of papers collected in this book should be of interest to investigators working in a variety of fields from philosophy logic and legal theory to artificial intelligence computer and management sciences since it covers topics ranging from theoretical research on foundational issues in deontic and action logics defeasible reasoning decision theory ethical theory and legal theory to research on a variety of issues relevant to applications connected with expert systems in the law document specification automation of defeasible reasoning specification of responsibilities and powers in organizations normative systems specification confidentiality in database systems and a host of other applications

Agency, Norms, Inquiry, and Artifacts: Essays in Honor of Risto Hilpinen Paul McNamara, Andrew J. I. Jones, Mark A. Brown, 2022-04-14 The book contains a collection of chapters written by experts from the fields of philosophy law logic computer science and artificial intelligence who pay tribute to Professor Risto

Hilpinen's impressive work on the logic of induction on deontic logic and epistemology and on philosophy of science. In addition to an introduction by the editors a section on Professor Hilpinen's positions professional services and honors as well as a complete bibliography of his writings the editors McNamara Jones and Brown have compiled a multidisciplinary global cross section of academic contemporaries that provides insights and perspectives on Hilpinen's influence and legacy. The essays reflect central aspects of Risto Hilpinen's research interests and offer further contributions to some of the philosophical fields for which he is best known applied modal logic including deontic logic from the ancient Greek down to pertaining to the concepts of duty and obligation the semantics of normative language the logic of action and the theory of practical reasoning the analysis of the concept of artifact and the theory of semiotics in the tradition of Charles Peirce. The presence in the collection of several papers relating to deontic logic underlines Hilpinen's importance in that area in which his publications have long been recognized as standard works. The book is an essential collection of ideas for all those who feel at home in a variety of formal disciplines from propositional logic to the logic of artificial intelligence.

Handbook of Legal Reasoning and Argumentation Giorgio Bongiovanni, Gerald Postema, Antonino Rotolo, Giovanni Sartor, Chiara Valentini, Douglas Walton, 2018-07-02 This handbook addresses legal reasoning and argumentation from a logical philosophical and legal perspective. The main forms of legal reasoning and argumentation are covered in an exhaustive and critical fashion and are analysed in connection with more general types and problems of reasoning. Accordingly the subject matter of the handbook divides in three parts. The first one introduces and discusses the basic concepts of practical reasoning. The second one discusses the general structures and procedures of reasoning and argumentation that are relevant to legal discourse. The third one looks at their instantiations and developments of these aspects of argumentation as they are put to work in the law in different areas and applications of legal reasoning.
