Agriculture In The Middle Ages Technology Practice And Representation:

Agriculture in the Middle Ages Del Sweeney,1995 Explores the cultural framework within which changes in agricultural technology and economic organization occur and the ways in which changes in the social fabric influence attitudes toward rural work and the peasantry *Medieval Farming and Technology* ,2023-07-24 This is the first of three planned volumes which deal with the techniques and technology of agriculture in Europe in the period from 600 A D down to the 17th century The focus of this first volume is Scandinavia the British Isles Northern Germany the Low Countries and Northern France The volume discusses methodological approaches and their limitations the development of medieval agriculture in terms of the transmission of technological ideas improvements in productivity regional variations social responses to agricultural technology and those common trends that unite the Northwest European region The volume integrates material derived from the great advances made in medieval archaeology and the historical study of landscapes during the past 30 years and has a supranational character It will be of interest to all those working on the social economic and political history of Northwest Europe in the medieval and early modern periods as well as to those undertaking research in the specific field of the history of technology Technology in Mediterranean and European Lands, 600-1600 Pamela O. Long,2025-04-15 How medieval and Renaissance technology shaped Mediterranean and European society across a millennium In *Technology in Mediterranean and European Lands 600 1600* Pamela O Long explores the intricate web of technological advancements that shaped Mediterranean and European societies during the medieval and early modern periods From the essential crafts of ploughing and tailoring to the sophisticated hydraulic systems and monumental building constructions Long illuminates how ordinary people harnessed and transformed their world Drawing on recent scholarship on environmental history and the history of technology as well as materials object biographies and the circulation of objects Long examines the circulation of ideas and technologies in Europe and the Mediterranean The book covers the evolution of food production transportation and communication as well as the crafting of pottery weapons and machines This in depth historical analysis shows how these technological advancements had profound social and economic impacts on everyday life Long s meticulous research and engaging narrative bring to light the interconnectedness of various crafts and their contributions to the broader tapestry of human history By integrating archaeological findings historical texts and modern scientific methods the book offers an interdisciplinary perspective on the technological practices of the pre modern world Perfect for scholars students and history enthusiasts *Technology in Mediterranean and European Lands 600 1600* emphasizes the ingenuity and resilience of past civilizations and the enduring legacy of technological innovation An Environmental History of the Middle Ages John Aberth,2013 The Middle Ages was a critical and formative time for Western approaches to our natural surroundings eeAn *Environmental History of the Middle Ages* is a unique and unprecedented cultural survey of attitudes towards the environment during this period Humankind e tm s relationship with the environment

shifted gradually over time from a predominantly adversarial approach to something more overtly collaborative until a series of ecological crises in the late Middle Ages With the advent of shattering events such as the Great Famine and the Black Death considered efflorescences of the climate downturn known as the Little Ice Age that is comparable to our present global warming predicament medieval people began to think of and relate to their natural environment in new and more nuanced ways They now were made to be acutely aware of the consequences of human impacts upon the environment anticipating the cyclical new ecology approach of the modern world Exploring the entire medieval period from 500 to 1500 and ranging across the whole of Europe from England and Spain to the Baltic and Eastern Europe John Aberth focuses his study on three key areas the natural elements of air water and earth the forest and wild and domestic animals Through this multi faceted lens **An Environmental History of the Middle Ages** sheds fascinating new light on the medieval environmental mindset It will be essential reading for students scholars and all those interested in the Middle Ages

Shortage and Famine in the Late Medieval Crown of Aragon Adam Franklin-Lyons, 2022-01-24 In the late fourteenth century the medieval Crown of Aragon experienced a series of food crises that created conflict and led to widespread starvation Adam Franklin Lyons applies contemporary understandings of complex human disasters vulnerability and resilience to explain how these famines occurred and to describe more accurately who suffered and why **Shortage and Famine in the Late Medieval Crown of Aragon** details the social causes and responses to three events of varying magnitude that struck the western Mediterranean the minor food shortage of 1372 the serious but short lived crisis of 1384 85 and the major famine of 1374 76 the worst famine of the century in the region Shifts in military action international competition and violent attempts to control trade routes created systemic panic and widespread starvation which in turn influenced decades of economic policy social practices and even the course of geopolitical conflicts such as the War of the Two Pedros and the papal schism in Italy Providing new insights into the intersecting factors that led to famine in the fourteenth century Mediterranean this deeply researched convincingly argued book presents tools and models that are broadly applicable to any historical study of vulnerabilities in the human food supply It will be of interest to scholars of medieval Iberia and the medieval Mediterranean as well as to historians of food and of economics

The church as sacred space in Middle English literature and culture Laura Varnam, 2018-01-11 This book presents an exciting new approach to the medieval church by examining the role of literary texts visual decorations ritual performance and lived experience in the production of sanctity The meaning of the church was intensely debated in the fourteenth and fifteenth centuries This book explores what was at stake not only for the church s sanctity but for the identity of the parish community as a result Focusing on pastoral material used to teach the laity it shows how the church s status as a sacred space at the heart of the congregation was dangerously but profitably dependent on lay practice The sacred and profane were inextricably linked and paradoxically the church is shown to thrive on the sacrilegious challenge of lay misbehaviour and sin
