The Unknowable in Literature and Material Culture Margot

Irvine, Jeremy Worth, 2019-10-08 Literature strives to interpret and explain the unknown and to propose ways in which to engage with it even if at least initially these keys exist only in the realm of the imagination This is one of the many important qualities that draw us to study literature and to marvel at the creative understandings that it offers However many questions call for further exploration how does something unknowable unspeakable become a subject that can be examined and debated How have literary and scientific communities entered into the dialogue and exchange that are crucial to the consolidation of knowledge By what processes can we come to know and understand that which remains hidden undocumented unspoken poorly understood the memories secrets unknowable and unspeakable truths of public and private human lives Inspired by questions such as these the contributors to this volume reflect on fin de siècle discourses around homosexuality and sexual inversion on Émile Zola as seeker of concealed truths and figure of scandal on the modes and crises of representing human experience in literary and visual forms and on the dialogic space between self and other Poetics of Opposition in Contemporary Spain Jonathan Snyder, 2016-04-29 Pairing cultural analysis in urban contexts with interdisciplinary approaches to political culture this book argues that recent cultural production in Spain grapples with the conditions and possibilities for social transformation in dialogue with the ongoing crisis neoliberal governance and political culture in Spain's democratic history *Compassion's Edge* Katherine Ibbett, 2018 Compassion's Edge traces the relation between compassion and toleration after France's Wars of Religion This is not however a story about compassion overcoming difference but one of compassion reinforcing division It provides a robust corrective to today's hope that fellow feeling draws us inexorably and usefully together **Disease and Democracy** Peter Baldwin, 2005-05-16 A historical masterpiece Just when we thought we knew everything about the politics and policies of the HIV/AIDS pandemic Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS Baldwin offers a deeply historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful *Contagion and the State in Europe 1830-1930* Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of *Private Acts Social Consequences Aids and the Politics Of Public Health* and coauthor with Gerald Oppenheimer of *AIDS Doctors Voices from the Epidemic* **HIV Stories** Jean-Pierre Boulé, 2002-01-01 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited *Requirements for Certification* since the 2000-01 edition *Whitman's Queer Children* Catherine A. Davies, 2012-04-26 Davies examines

the work of four of the most important twentieth century poets who have explored the epic tradition. Some of the poems display an explicit concern with ideas of American nationhood while others emulate the formal ambitions and encyclopaedic scope of the epic poem. The study undertakes extensive close readings of Hart Crane's *The Bridge* (1930), Allen Ginsberg's *Howl* (1956) and *The Fall of America*, Poems of These States (1965–71), 1972; James Merrill's *The Changing Light at Sandover* (1982) and John Ashbery's *Flow Chart* (1991). Although not primarily an account of a Whitmanian lineage, this book considers Whitman's renegotiation of the dialectic between the public and the private as a context for the project of the homosexual epic, arguing for the existence of a genealogy of epic poems that rethink the relationship between these two spheres. If, as Bakhtin suggests, the job of epic is to accomplish the task of cultural, national and political centralization of the verbal ideological world, the idea of the homosexual epic fundamentally problematizes the traditional aims of the genre.
