The Collected Poetry Aime Cesaire, 1983-10-03 The surrealist poetry of the noted Martinican author Aime Cesaire portrays Africa's fight for freedom from colonialism *Aimé Césaire, the Collected Poetry* Aimé Césaire, 1983 The surrealist poetry of the noted Martinican author Aime Cesaire portrays Africa's fight for freedom from colonialism **The Collected Poetry** Aim C Saire, 1983-10-03 This edition containing an extensive introduction notes the French original and a new translation of C saire's poetry the complex and challenging later works as well as the famous Notebook will remain the definitive C saire in English **The Changing Face of Afro-Caribbean Cultural Identity** Mamadou Badiane, 2010-01-01 The Changing Face of Afro Caribbean Cultural Identity Negrismo and N gritude looks primarily at Negrismo and N gritude through the eyes of the poetry of Nicolas Guill n Manuel del Cabral and Pal s Matos as well as L opold Senghor L on Gontran Damas and Aim C saire The book shows Caribbean cultural identity as a slippery and fluctuating zone *Aimé Césaire* Gregson Davis, 1997-10-16 A study of Antiguan writer Aim C saire which links his political career to recurrent themes in his writing Aimé Césaire Jane Hiddleston, 2025-01-22 Aim C saire is arguably the greatest Caribbean literary writer in history Best known for his incendiary epic poem Notebook of a Return to My Native Land C saire reinvented black culture by conceiving n gritude as a dynamic and continuous process of self creation In this essential new account of his life and work Jane Hiddleston introduces readers to C saire's unique poetic voice and to his role as a figurehead for intellectuals pursuing freedom and equality for black people C saire was deeply immersed in the political life of his native Martinique for over fifty years as Mayor of Fort de France and Deputy at the French National Assembly he called for the liberation of oppressed people at home and abroad while celebrating black creativity and self invention to resist a history of racism C saire's extraordinary life reminds us that the much needed revolt against oppression and subjugation can and should come from within the establishment as well as without *The Complete Poetry of Aimé Césaire* Aimé Césaire, 2017-09-05 The Complete Poetry of Aim C saire gathers all of Cesaire's celebrated verse into one bilingual edition The French portion is comprised of newly established first editions of C saire's poetic oeuvre made available in French in 2014 under the title Po sie Th tre Essais et Discours edited by A J Arnold and an international team of specialists To prepare the English translations the translators started afresh from this French edition Included here are translations of first editions of the poet's early work prior to political interventions in the texts after 1955 revealing a new understanding of Cesaire's aesthetic and political trajectory A truly comprehensive picture of Cesaire's poetry and poetics is made possible thanks to a thorough set of notes covering variants historical and cultural references and recurring figures and structures a scholarly introduction and a glossary This book provides a new cornerstone for readers and scholars in 20th century poetry African diasporic literature and postcolonial studies Anticolonial Form Alexandra Reza, 2024-01-24 Anticolonial Form Literary Journals at the End of Empire addresses the relationship between culture and politics in two journals published in Europe by African writers Pr sence Africaine

launched in Paris in 1947 and *Mensagem* published between 1948 and 1964 in Lisbon Grounded in extensive archival work the book argues for a comparative and transnational approach to postcolonial literary studies for the significance of the literary journal as a key form in the development of African writing in French Portuguese and English and for a historically and geographically contingent understanding of the relationships between literature culture and politics This book takes up the idea of articulation to bring forward the contingent and fugitive connections that networks of literary journals fostered between francophone anglophone and lusophone writers in the conjuncture of decolonization in the 1950s and 1960s It argues that comparison as a praxis and a method was central to the anticolonial charge of those journals on whose pages we see an iterative back and forth between writing from and about different parts of the colonial world a recursive effort to establish how ideas and analyses developed in one part of the colonial world could travel and be adopted and adapted in others Many scholars have argued convincingly that the institutionalized practice of comparison in the academic field of comparative literature is itself imbricated with histories of colonialism Reza's argument takes on a particular significance in the context of that critique as the anticolonial comparison on which she focuses offers a different tradition of relational praxis from which to think about connection and comparison itself

Freedom Time Gary Wilder, 2015-02-14 *Freedom Time* reconsiders decolonization from the perspectives of Aimé Césaire Martinique and Léopold Sédar Senghor Senegal who beginning in 1945 promoted self determination without state sovereignty As politicians public intellectuals and poets they struggled to transform imperial France into a democratic federation with former colonies as autonomous members of a transcontinental polity In so doing they revitalized past but unrealized political projects and anticipated impossible futures by acting as if they had already arrived Refusing to reduce colonial emancipation to national independence they regarded decolonization as an opportunity to remake the world reconcile peoples and realize humanity's potential Emphasizing the link between politics and aesthetics Gary Wilder reads Césaire and Senghor as pragmatic utopians situated humanists and concrete cosmopolitans whose postwar insights can illuminate current debates about self management postnational politics and planetary solidarity *Freedom Time* invites scholars to decolonize intellectual history and globalize critical theory to analyze the temporal dimensions of political life and to question the territorialist assumptions of contemporary historiography
