**The Cactus Air Force** Eric Hammel, Thomas McKelvey

Cleaver, 2022-09-01. Using diary entries, interviews, and first-hand accounts, this vivid narrative brings to life the struggle in the air over the island of Guadalcanal between August 20 and November 15, 1942. The battle of Guadalcanal was the first offensive operation undertaken by the US and its allies in the Pacific War. The three months of air battles between August 20, 1942, when the first Marine air unit arrived on the island, and November 15, when the last enemy attempt to retake the island was defeated, were perhaps the most important of the Pacific War. Cactus, the code name for the island, became a sinkhole for Japanese air and naval power as they experienced losses that could never be made good. For 40 years, the late Eric Hammel interviewed more than 150 American participants in the air campaign at Guadalcanal, none of whom are still alive. These interviews are the most comprehensive first-person accounts of the battle assembled by any historian. More importantly, they

involved the junior officers and enlisted men whose stories and memories were not part of the official history and thus provide a unique insight In The Cactus Air Force Pacific War expert Thomas McKelvey Cleaver worked closely with Eric to build on his collection of diary entries interviews and first hand accounts to create a vivid narrative of the struggle in the air over the island of Guadalcanal between August 20 and November 15 1942 Air War in the Pacific George C. Kenney,2014-03-20 Air War in the Pacific originally published in 1949 as General Kenney Reports A Personal History of the Pacific War is a classic account of a combat commander in action General George Churchill Kenney arrived in the Southwest Pacific theater in August 1942 to find that his command if not in a shambles was in dire straits The theater commander General Douglas MacArthur had no confidence in his air element Kenney quickly changed this situation He organized and energized the Fifth Air Force bringing in operational commanders like Whitehead and Wurtsmith who knew how to run combat air forces He fixed the logistical swamp making supply and maintenance supportive of air operations and encouraging mavericks such as Pappy Gunn to make new and innovative weapons and to explore new tactics in airpower application The result was a disaster for the Japanese Kenney s airmen used air power particularly heavily armed B 25 Mitchell bombers to savage Japanese supply lines destroying numerous ships and effectively isolating Japanese garrisons The classic example of Kenney in action was the Battle of the Bismarck Sea which marked the attainment of complete Allied air dominance and supremacy over Japanese naval forces operating around New Guinea In short Kenney was a brilliant innovative airman who drew on his own extensive flying experiences to inform his decision making Air War in the Pacific is a book that has withstood the test of time and which remains as the definitive work on the Pacific air campaign in World War II
