Ethell, Clarence Simonsen, 2003-01-01 Ethell and Simonsen combine their knowledge to reveal stories behind the greatest nose art of all time A Motorbooks Classic [Aircraft Nose Art](#) Andretta Schellinger, 2016-03-14 Since World War I nose art has adorned military aircraft around the world Intended for friendly rather than enemy eyes these images with a wide range of artistic expression are part of the personal and unit histories of pilots and aircrews As civilian and military attitudes and rationales for war change from one conflict to the next changes can also be seen in the iconography of nose art This analysis from a cultural perspective compares nose art in the United States Great Britain and France from World War I World War II the Korean War and the Vietnam War **The History of Aircraft Nose Art** Jeffrey L. Ethell, Clarence Simonsen, 1991 Explains the art of painting fighter planes and examines how it has changed over the years **Vintage Aircraft Nose Art** Gary Valant, 2002-01-12 The unique art that graced military aircraft in World War II and the Korean War Applied by amateurs or professional artists like Vargas the art typically featured alluring women whose charms belied the deadly cargo the crew hoped to deliver to its targets Hundreds of examples are shown in a combination of archival photos from the wars and current photos of artwork in museum collections [Torpedo Bombers, 1900-1950](#) Jean-Denis Lepage, 2020-01-27 The torpedo bomber was a very short lived weapon system operational for scarcely half a century from just prior WWI to the 1960s Yet during its brief existence it transformed naval warfare extending the ship killing range of ships and coastal defences to hundreds of miles The Royal Navy and Fleet Air Arm led the way recording the first sinking of a ship by aerial torpedo in August 1915 but all major navies eagerly developed their own torpedo bomber forces The torpedo bomber reached its zenith in WWII particularly from 1940 42 with notable successes at the Battle of Taranto the sinking of the Bismarck and Pearl Harbor It was the weapon of choice for both the US and Japanese in the big Pacific battles such as Midway In the latter stages of the war increasingly effective anti aircraft fire and interceptor aircraft started to render it obsolete a process completed post war by long range anti ship missiles Jean Denis Lepage traces the development of torpedo bombers worldwide describing their tactics operational history and the aircraft themselves including such well loved types as the Swordfish Beaufighter and Avenger Over 300 aircraft are beautifully illustrated [Weapons of the Eighth Air Force](#) Frederick A. Johnsen, 2003 **El Tigre News** , 2003 **Vehicles** David Lipset, Richard Handler, 2014-08-01 Metaphor as an act of human fancy combines ideas in improbable ways to sharpen meanings of life and experience Theoretically this arises

from an association between a sign for example a cattle car and its referent the Holocaust These sign vehicles serve as modes of semiotic transportation through conceptual space Likewise on the ground vehicles can be rich metaphors for the moral imagination Following on this insight Vehicles presents a collection of ethnographic essays on the metaphoric significance of vehicles in different cultures Analyses include canoes in Papua New Guinea pedestrians and airplanes in North America lowriders among Mexican Americans and cars in contemporary China Japan and Eastern Europe as well as among African Americans in the South Vehicles not only carry people around but also carry how they are understood in relation to the dynamics of culture politics and history *The Oxford Companion to American Military History* ,
