The Political Psychology of Globalization Catarina Kinnvall, Paul Nesbitt-Larking, 2011-08-01 In an increasingly globalized world there are new economic strategic cultural and political forces at work The Political Psychology of Globalization Muslims in the West explores how these shifts and shocks have influenced the way in which Muslim minorities in western countries form their identities as political actors Catarina Kinnvall and Paul Nesbitt Larking uncover three identity strategies adopted by Muslims in the West retreatism essentialism and engagement Six western countries Canada Denmark France the Netherlands Sweden and the United Kingdom serve as places for exploration of the emergence of these Muslim political identities These countries are discussed in light of their colonial histories patterns of immigration and citizenship regimes Although retreatism essentialism and engagement occur in Muslim citizens of each of the six western nations discussed in this book the countries that are best able to balance individual and community rights are most successful in promoting the politics of engagement In contrast regimes that focus on anti terrorist legislation and discourses and support majority political cultures that are exclusionary also promote retreatism and essentialist identity strategies in both minority and majority communities The authors discuss the importance of a climate of engagement that is based on recognition dialogue deep multiculturalism a new global and cosmopolitical consciousness and a sense of political identity that transcends national boundaries and regimes

Ideology, Agency, and Intercultural Communicative Competence Jeremie Bouchard, 2017-03-30 Associated with an important epistemological shift from language proficiency to language criticality in applied linguistic research this book provides a sociological perspective on

foreign language education in Japan By employing ethnographic methods to investigate the relationship between three core analytical elements foreign language education geared towards the development of learners intercultural communicative competence nihonjinron and native speakerism as potentially constraining ideological forces and EFL practices observed at four Japanese junior high schools the author not only shares valuable insights into how English is taught and learned in a stratum of the Japanese EFL system which has received limited attention from researchers over the years but also clarifies the fundamental and complex changes currently taking place in the Japanese EFL landscape This multi faceted book also calls for greater consideration in postmodern ideology critique for the stratified nature of social processes as well as the material conditions and underlying generative mechanisms involved in the production and consumption of including resistance to ideological discourse Accordingly it outlines several challenges shaping ideology research in educational settings and responds by developing a realist oriented theoretical and methodological approach to address these challenges This book serves as a unique point of reference for the study of parallel nationalist discourses embedded in foreign language education systems around the world Discourse in Action Rodney H Jones, Sigrid Norris, 2005-09-21 From emails relating to adoption over the Internet to discussions in the airline cockpit the spoken or written texts we produce can have significant social consequences The area of Mediated Discourse Analysis considers texts in their social and cultural contexts to explore the actions individuals take with texts and the consequences of those actions Discourse in Action brings together leading scholars from around the world in the area of Mediated Discourse Analysis reveals ways in which its theory and methodology can be used in research into contemporary social situations explores real situations and draws on real data in each chapter shows how analysis of texts in their social contexts broadens our understanding of the real world Taken together the chapters provide a comprehensive overview to the field and present a range of current studies that address some of the most important questions facing students and researchers in linguistics education communication studies and other fields

Gender equality and welfare politics in Scandinavia Kari Melby, Christina Carlsson Wetterberg, Anna-Birte Ravn, 2009-05-05 Gender equality is often seen as a hallmark of the Nordic countries This book explores this notion by examining the meanings of gender that underpin policies in the Scandinavian welfare states historically and today The book focuses on three Scandinavian countries Denmark Norway and Sweden and explores the policy reforms that have occurred relating to family and care Beginning with the radical marriage reform carried through in all the three countries in the early decades of the 20th century the book progresses to explore contemporary challenges to the traditional model of equality including equal rights for fathers multiculturalism and a critical young generation The book focuses on differences as well as similarities between the countries and discusses the relevance of talking about a Nordic model Stressing the importance of viewing the concept of equality in its historical context the book critically investigates and discusses the Scandinavian success story portrayed in normative political theory and presents an historical analysis of the development of gendered

citizenship rights It will be a valuable collection for researchers lecturers and graduate students who work with historical and contemporary studies on welfare state and gender models from different disciplinary or interdisciplinary perspectives

Language and Subjectivity Tim McNamara, 2019-02-28 Understanding the role of language within the formation of a sense of self has been revolutionised by developments in social theory particularly poststructuralism There is now a new emphasis on the way in which subjects are vulnerable in the face of powerful discourses such as nation gender race and sexuality This book is a clear and engaging introduction to these developments and their relevance to students of language Using lively and often personal examples throughout Tim McNamara explores the role of language within processes of subjectivity using the insights of conversation analysis CA creating an original conceptual and methodological bridge between the macro and micro dimensions of social discourse and everyday conversational interaction

The Structure of Social Theory Anthony King, 2004 Over the last three decades social theory has become an increasingly important subdiscipline within sociology Social theory has attempted to elucidate the philosophical basis of sociology by defining the nature of social reality According to social theory society consists of objective institutions structure on the one hand and individuals agency on the other it promotes human social relations insisting that in every instance social reality consists of these relations

Modernist Writings and Religio-scientific Discourse L. Vetter, 2010-04-26 Addresses the early twentieth century intersection of scientific and religious discourse exploring literary modernism through the lens of cultural history focusing on the works of H D Mina Loy and Jean Toomer It covers a range of topics such as electromagnetism and sexuality dance and theories of spiritual evolution

Social Theory and Language Glyn Williams, 2020-06-07 This volume offers a comprehensive treatment of the historical developments underpinning our present understandings of the relationship between language and the social by integrating the study of language with key strands of sociological theory The book posits that theory conditions how objects are constructed and in turn the meanings allocated to them and explores the implications for the relationship between language and the social The volume traces this relationship from its foundations in the work of Enlightenment philosophers in which sociology and linguistics emerged as coherent disciplines Taking this work as a point of departure the book examines the unfolding of the interplay between language and the social across developments in sociological theory in subsequent eras encompassing such strands as Marxism functionalism interactionism anti foundationalism poststructuralism critical theory and critical realism A final chapter turns its eye toward contemporary sociolinguistics and its treatment of different sociological perspectives and future directions for its continued development Reflecting on trajectories in sociological theory toward informing our understanding of the relationship between language and the social today this book will be key reading for students and scholars in sociolinguistics philosophy of language and those working in sociology and geography with an interest in language issues
