Agent Orange Collateral Damage In Vietnam:

Agent Orange Philip Jones Griffiths, 2003 Philip Jones Griffiths for a record five years the President of Magnum Photos created in Vietnam Inc a record of the war there of almost Biblical proportions No one who has seen it will forget its haunting images In Agent Orange he has added a postscript that is equally memorable In 1960 the United States war machine concluded that an efficient deterrent to the enemy troops and civilians would be the devastation of the crops and forestry that afforded them both succour and cover for their operations Initial descriptions of the scheme included Food Denial Program later adapted to depriving cover for enemy troops They gave the idea the name Operation Hades but were advised that Operation Ranch Hand was a more suitable cognomen for PR purposes The US had developed herbicides for the task The most infamous became known as Agent Orange after the coloured stripe on the canisters used to distribute it The planes that carried the canisters had only we can prevent forests as a logo on their fuselages They were right It was very effective Unfortunately the herbicide also contained Dioxin probably the world's deadliest poison In Agent Orange Philip Jones Griffiths has photographed the children and grandchildren of the farmers whose faces were lifted to the gentle rain of the poison cloud Some maintain that the connection between the maimed subjects of Griffiths' photographs and the exposure to Agent Orange is not scientifically established However the compensation payments made by the herbicide manufacturers to those Americans sprayed in Viet Nam refute this assertion Historians will find it sufficient to say that there will always be collateral damage that useful PR phrase in war and that Philip Jones Griffiths should understand the consequences of martial endeavours He most certainly does He has catalogued here a pitiless series of photographs and there can be no doubt that they should and will be recognized *A Doctor's Vietnam Journal* Carl E. Bartecchi, 2006 [Historical Dictionary of the War in Vietnam](#) Ronald B. Frankum Jr., 2011-06-10 For Southeast Asia the Vietnam War altered forever the history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible Historical Dictionary of the War in Vietnam emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War [Agent Orange: The](#)

Cleanup Begins John Stapleton, 2013-05-22 Thirty seven years after the end of the Vietnam War an historic event occurred at busy Da Nang Airport an Agent Orange hot spot where tonnes of the infamous herbicide were decanted and reloaded on to cargo planes for spraying across the country's lush fields and forests Dioxin the accidental contaminant in Agent Orange responsible for many tens of thousands of birth defects and early deaths is regarded as probably the most poisonous of all the compounds ever devised by man This 10 000 word page primer records the events which lead up to the year when the wrongs of the past were finally addressed in joint efforts by the American and Vietnamese governments This short book is the perfect way to bring yourself up to date on this vexed and long running issue *Stewards of Eden* Sandra L.

Richter, 2020-02-25 Sandra L Richter cares about the Bible and the environment Using her expertise in ancient Israelite society as well as in biblical theology she walks readers through biblical passages and shares case studies that connect the biblical mandate to current issues She then calls Christians to apply that message to today's environmental concerns

Agent Orange and Rural Development in Post-war Vietnam Vu Le Thao Chi, 2020-03-04 Vu tells the story of Vietnamese farmers who have survived a 30 year war of independence and unification its damaging legacies in their living environment and the unfamiliar pressure of the market economy Vietnamese farmers are neither simply obedient beneficiaries of policy decisions made by higher authorities nor convention ridden cyphers Rather they are sophisticated decision makers capable of navigating the changes threatening to disrupt their lives over multiple generations Vu's research pays particular attention to those farmers whose families have suffered from direct and indirect exposure to the toxic herbicides popularly known as Agent Orange She demonstrates that their priority has tended to be the protection of their existing assets rather than pursuing the promise of new riches and that this tendency has helped them maintain stability in a turbulent economic environment A fascinating study for scholars of Vietnamese anthropology and society the book will also be of interest to sociologists and economists with a broader interest in the impact of economic and political change on rural lifestyles **The**

contribution to discussions about the power of the image in conflict **Poisoning the Pacific** Jon Mitchell, 2020-10-12 In this devastating exposé investigative journalist Jon Mitchell reveals the shocking toxic contamination of the Pacific Ocean and millions of victims by the US military For decades US military operations have been contaminating the Pacific region with toxic substances including plutonium dioxin and VX nerve agent Hundreds of thousands of service members their families and residents have been exposed but the United States has hidden the damage and refused to help victims After World War II the United States granted immunity to Japanese military scientists in exchange for their data on biological weapons tests conducted in China in the following years nuclear detonations in the Pacific obliterated entire islands and exposed Americans Marshallese Chamorros and Japanese fishing crews to radioactive fallout At the same time the United States experimented with biological weapons on Okinawa and stockpiled the island with nuclear and chemical munitions causing numerous accidents Meanwhile the CIA orchestrated a campaign to introduce nuclear power to Japan the folly of which became horrifyingly clear in the 2011 meltdowns in Fukushima Prefecture Caught in a geopolitical grey zone US territories have been among the worst affected by military contamination including Guam Saipan and Johnston Island the final disposal site of apocalyptic volumes of chemical weapons and Agent Orange Accompanying this damage US authorities have waged a campaign of cover ups lies and attacks on the media which the author has experienced firsthand in the form of military surveillance and attempts by the State Department to impede his work Now for the first time this explosive book reveals the horrific extent of contamination in the Pacific and the lengths the Pentagon will go to conceal it Environmental Racism in the United States and Canada Bruce E. Johansen, 2020-04-14 From Flint Michigan to Standing Rock North Dakota minorities have found themselves losing the battle for clean resources and a healthy environment This book provides a modern history of such environmental injustices in the United States and Canada From the 19th century extermination of the buffalo in the American West to Alaska's Project Chariot a Cold War initiative that planned to use atomic bombs to blast out a harbor on Eskimo land to the struggle for recovery and justice in Puerto Rico following Hurricane Maria in 2017 this book provides readers with an enhanced understanding of how poor and minority people are affected by natural and manmade environmental crises Written for students as well as the general reader with an interest in social justice and environmental issues this book traces the relationship between environmental discrimination race and class through a comprehensive case history of environmental injustices Environmental Racism in the United States and Canada Seeking Justice and Sustainability includes 50 such case studies that range from local to national to international crises Afterimages Liam Kennedy, 2016-03-01 In 2005 photographer Chris Hondros captured a striking image of a young Iraqi girl in the aftermath of the killing of her parents by American soldiers The shot stunned the world and has since become iconic comparable to the infamous photo by Nick Ut of a Vietnamese girl running from a napalm attack Both images serve as microcosms for their respective conflicts Afterimages looks at the work of war photographers like Hondros and Ut to understand how

photojournalism interacts with the American worldview Liam Kennedy here maps the evolving relations between the American way of war and photographic coverage of it Organized in its first section around key US military actions over the last fifty years the book then moves on to examine how photographers engaged with these conflicts on wider ethical and political grounds and finally on to the genre of photojournalism itself Illustrated throughout with examples of the photographs being considered Afterimages argues that photographs are important means for critical reflection on war violence and human rights It goes on to analyze the high ethical sociopolitical and legalistic value we place on the still image s ability to bear witness and stimulate action
