Chaos and Violence Stanley Hoffmann, 2006 The author's fifth collection of essays on international affairs in forty years written in the past six years intro *Performing Utopias in the Contemporary Americas* Kim Beauchesne, Alessandra Santos, 2017-05-09 This book offers an innovative examination of the utopian impulse through performance as a proposition of practical engagement in the contemporary Americas The volume compiles unique multidisciplinary and exploratory texts applying diverse critical and artistic approaches Its contributors reconceptualize utopia as a creative and theoretical method based on a commitment to sociopolitical transformation Chapters are organized around notions of mapping utopias indigenizing practices political manifestations and the construction of social identities *The Situated Politics of Belonging* Nira Yuval-Davis, Kalpana Kannabiran, Ulrike Vieten, 2006-06-27 This collection of essays examines the racialized and gendered effects of contemporary politics of belonging issues which lie at the heart of contemporary political and social lives It encompasses critical questions of identity and citizenship inclusion and exclusion emotional attachments violent conflicts and local global relationships The range geographically thematically and theoretically covered by the chapters reflects current concerns in the world today A timely contribution to the ongoing debates in the field it will be a valuable companion to scholars working in the areas of multiculturalism globalisation and culture race and ethnic studies gender studies and studies of post partition societies *The Ashgate Research Companion to International Criminal Law* Yvonne McDermott, 2016-03-23 International criminal law is at a crucial point in its history and development and the time is right for practitioners academics and students to take stock of the lessons learnt from the past fifteen years as the international community moves towards an increasingly uni polar international criminal legal order with the International Criminal Court ICC at the helm This unique Research Companion takes a critical approach to a wide variety of theoretical practical legal and policy issues surrounding and underpinning the operation of international criminal law as applied by international criminal tribunals The book is divided into four main parts The first part analyses international crimes and modes of liability with a view to identifying areas which have been inconsistently or misguidedly interpreted overlooked to date or are likely to be increasingly significant in future The second part examines international criminal processes and procedures and here the authors discuss issues such as victim participation and the rights of the accused The third part is a discussion of complementarity and sentencing while the final part of the book looks at international criminal justice in context The authors raise issues which are likely to provide the most significant challenges and most promising opportunities for the continuing development of this body of law As international criminal law becomes more established as a distinct discipline it becomes imperative for international criminal scholarship to provide a degree of critical analysis both of individual legal issues and of the international criminal project as a whole This book represents an important collective effort to introduce an element of legal realism or critical legal studies into the academic discourse **Coyote's Song** Richard D. Uncovering Violence Amy Cottrill,2021-10-26 It is no surprise that the Bible is filled with stories of violence having come into being through the crucible of trauma cultural conflict and warfare But the more obvious acts of physical or sexual violence in the Hebrew Bible often overshadow its subtler forms throughout Scripture and belie the variety of perspectives on violence embedded in biblical narratives This hinders readers ability to recognize the full spectrum of human engagement with violence both in texts and in their lived experiences *Uncovering Violence Reading Biblical Narratives as an Ethical Project* seeks to provide a theoretical vocabulary for the various forms that violence can take including textual violence interpretive violence moral injury and slow violence and to offer a fresh ethical reading of violence in the biblical text Focusing on four narratives from the Hebrew Bible Cottrill uses the approach of narrative ethics to lay out the many ways that stories can make moral claims on readers not by delivering a discrete lesson or takeaway but by making transformative contact with readers and involving them in a more embodied dialogue with the text Exploring the narratives of Jael s killing of Sisera the toxic masculinity of Samson environmental devastation and failures of legal systems in Ruth and Abigail s mediation with King David *Uncovering Violence* presents strategies for reading that allow for this close encounter In doing so it helps prepare readers to better recognize interpret and even respond to violence and its many effects within and beyond the text
