

A man with dark hair, wearing a white button-down shirt, is shown in profile, looking towards a computer monitor. The monitor displays a complex diagram featuring two DNA double helices, a chemical structure of a hexagonal ring system, and various labels including 'DNA', 'RNA', and 'ATP'. The background is a wall covered in hand-drawn sketches of molecular structures and graphs. A semi-transparent dark box with white and yellow text is overlaid on the center of the image.

of total health and performance      *Biohackers Magazine Issue 9* Biohackers Magazine , The importance of continual self improvement and development cannot be understated especially in the world of biohacking But there is also something that cannot be overstated in this same realm of personal health and growth and that is the vital role that women play Often argued and affirmed as the more intuitive of the 2 sexes women have and continue to push themselves and their community towards their health wellness and wisdom goals In a lot of ways men have it easy Our bodies instruction manual is comparable to a generic IKEA coffee table s guided instructions not a lot to decipher But some could compare women bodies manuals to NASA s rocket construction directions a lot of steps and A LOT to understand Granted the woman s body is easily the more attractive of the two in my opinion and I want it to be clear that although this statement is bias I mean this as a more aesthetic art like manner The symmetry the intricacy the mysteriousness the gracefulness just the way everything connects Perhaps its because of this clear advantage in the beauty category that it takes a lot to master all the processes within it It once was said that in the beginning God first made man but then afterwards he took a long look at him and then told himself I can do better than that and then made woman Women are at the forefront of biohacking and its clear that the industry would not be where it is today without them Due to women having to figure out all of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman s thought and word is just as important as every man s And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new woman ful issue      *Neuroplasticity: Rewiring Your Brain for Health and Happiness (A Cognitive Behavioral Approach to Anxiety and Procrastination)* Alan Hurley,101-01-01 This book is an absolute must read for educators Educator fatigue and burnout are at an all time high Students are carrying their mental and emotional exhaustion into the classroom Neuroplasticity explores the plasticity of the brain and nervous system while learning how adversity and trauma impact a student s developing nervous system to affect behaviors which ultimately changes the way educators approach discipline and engagement Topics of discussion The amazing capacity of the human brain No longer a concept but a fact of life Early brain development Neuroplasticity and intelligence Neuroplasticity and brain repair The future of the brain Bonus Find inside This book undertakes to accomplish three tasks in bringing the world of neuroplasticity to the everyday reader and to his or her idea of improving it in a way they see fit It shows the reader that each person has the ability to alter and adjust the shape and resistance of his or her own mind This is powerful information because when you

alter the shape of the mind you are essentially changing your destiny You will know more about neuroplasticity to increase brain power to succeed and your dream     Bulletproof: The Cookbook Dave Asprey, 2015-12-01 In The Bulletproof Diet Dave Asprey turned conventional diet wisdom on its head outlining the plan responsible for his 100 pound weight loss which he came to by biohacking his body and optimizing every aspect of his health Asprey urges you to skip breakfast stop counting calories eat high levels of healthy saturated fat work out less sleep better and add smart supplements In doing so he promises you ll gain energy build lean muscle and watch the pounds melt off just as he and so many of his devoted followers already have Bulletproof The Cookbook picks up where the diet plan leaves off arming you with 125 recipes to stay bulletproof for life and never get bored Famous for his butter laden Bulletproof Coffee Asprey packs the book with the other delicious filling meals he uses to maintain his weight loss and sustain his vibrant health     **Biohackers Magazine Issue 11**

Biohackers , The world and the humans share a special bond together The world is a place full of vibrant life unpredictable events and a sort of beautiful self sustaining chaos The Human being s journey on this Earth is one that is corporeal yet also deeply spiritual The world presents so many things into our lives that often we forget that we are more than just what invokes responses from our physical senses What separates man from every other creature is his ability to think rationally What man lacks in survival endowments such as long claws fur etc man makes up for in his ability to know Man can think and know that he thinks Man can eat and know that he eats Man can speak and know that he speaks The human being is able to conquer and have dominion over the creatures and the world itself because of this unique ability to know rationally There are many different areas where the human being shows this separation of pure intellect One would be his tool making ability or homo Faber It is true that some monkeys can make tools but it is the only man that makes these tools not just as an extension of their bodily reach but as direct fruition of their thoughts Community Language Science Arts Religion Death and Culture are all elements that show man s rationality his intellect The intellect exists in the soul of man and animates the body through the influence on man s free will Too often we focus on the superficial parts of ourselves and get lost in the mainstream s constant influential assault about how we should be physical While of course we are composed of the body we must remember that it is the soul that also makes up our life and its health must also be taken into consideration in everything we do We can define a human being as a rational animal a composite of both body and soul Its soul is the subsistent element and its powers involve the knowing intellect and the will to do good With free will aiming toward good and knowledge aiming towards the truth the human being works towards becoming more beautiful in the sense of intentionality of culture Biohacking in its deepest sense must look beyond the temporal world of physiological and temporal matter and adhere to the health and the growth of the human soul We are all on this Earth together and as biohackers we have the mission of increasing our knowledge every single day to feed not only our bodies and brains but most importantly our souls When one chooses to take the time to explore such questions as who they are and how they act and where they are going and what is

their purpose they increase their value as a person through this continual development Their soul becomes more of a master over their temporal body and they can live life with perhaps more peace and happiness because of their continued growth and development of their soul which acts through their body
