Readers will discover how chronic activation of this response can lead to anxiety and health issues but also learn that when properly managed, it can enhance performance and personal growth. The book progresses through three main sections: 1. The biological underpinnings of the response; 2. Its manifestations in daily life; 3. Evidence-based strategies for mitigation. It uniquely frames stress as a potential ally rather than an enemy, offering a fresh perspective in stress management. Drawing from neurobiology, psychology, and holistic health practices, the author presents a comprehensive approach to understanding and harnessing this powerful biological mechanism. Lau, 2015-11-10 The pursuit of health and wellness has become a fundamental and familiar part of everyday life in America. We are surrounded by an enticing world of products, practices, and promotions assuring health and happiness: cereal boxes claim that their contents can reduce the risk of heart disease; bars of aromatherapy soap seek to wash away our stresses; newspapers celebrate the wonders of the latest superfoods and herbal remedies. No longer confined to the domain of Western medicine, suggestions for healthy living often turn to alternatives originating in distant times and places in cultures very different from our own. Diets from ancient or remote groups are presented as cures for everything from colds to cancer; exercise regimens based on Eastern philosophies are heralded as paths to physical health and spiritual wellbeing. In *New Age Capitalism*, Kimberly Lau examines the ideological work that has created this billion-dollar business and allowed Eastern and other non-Western traditions to be coopted by Western capitalism. Extending the orientalist logic to the business of health and wellness, American companies have created a lucrative and competitive market for their products, encouraging consumers to believe that they are making the right choices for personal as well as planetary health. In reality, alternative health practices have been commodified for an American public longing not only for health and wellness but also for authenticity, tradition, and a connection to the cultures of an imagined Edenic past. Although consumers might prefer to buy

into authentic non Western therapies New Age Capitalism argues that the market economy makes this goal unattainable
