"Yamano's unique intelligence about the body has led her to discover important keys to health. Her profound, original work can enhance any form of movement or bodywork."

—Ben F. Benjamin, Ph.D., author of *Crises in the Face*

Each body has its own story, its own logic and language of release. The internal logic of the body is at the heart of Body Rolling, an innovative technique that uses a ten-inch ball to stretch muscles, freeing restrictions in the body, increasing blood flow, and promoting healing. Body Rolling teaches "inside and out" anatomy: you learn to feel the shape of a muscle and sense from within what it feels like for that muscle to fully release. As muscle releases, you experience release in other related areas of the body. Feeling the ease of complete release and experiencing firsthand the interrelationships in the muscle system comes as a revelation to most bodywork therapists.

Yamano takes explains the underlying principles of her technique and tells how to get started, then gives instructions for basic rolls, front, and back exercises. More detailed chapters focus on treating specific conditions such as lower back pain, neck problems, and the effects of aging. Following the logic and order of the body, Body Rolling can eradicate muscles, creating positive, permanent changes that prevent new injuries from occurring.

Yamano takes, founder of Body Logic, is an internationally recognized bodywork practitioner and educator who teaches workshops throughout the United States and abroad. She lives in New York City. Stephanie Golden is a professional journalist, medical writer, and meditation author who also lives in New York.
