Integrated Assurance Vicky Kubitscheck, 2016-05-23 The need for assurance is never more acute than in times of turbulence and uncertainty The events following the financial market crisis demonstrate the catastrophic consequence of risk taking that exceeds the board s appetite and of not joining up risk intelligence for sound decision making Boards and senior management alike consistently seek the one truth about risk exposures and strength of controls but are continuing to grapple with the challenge Much has been written about assurance and the governance of risks but mainly by those who provide it such as internal auditors accountants and information security technologists for the purpose of advancing their professional practices Less is written for or by those in governance who need assurance for the effective discharge of their responsibilities Regulations do not usually go beyond acknowledging its importance and rely on those in the boardroom to get it right Studies have consistently shown the link between weak corporate governance and corporate failures The lack of reliable assurance has often been a factor Assurance as an integral part of corporate governance cannot be taken for granted It requires conscious action across the organisation It is time to rethink assurance beyond its usual functional boundaries to focus on what matters to the business and how discussions in the board room can be better supported by more joined up assurance

This book provides practical guidance for those who need that support as well as those who deliver assurance *Anxious 9 to 5* Larina Kase, 2006 In this book a psychologist who is also a seasoned businessperson offers tips for transforming workplace anxiety into productivity promoting peace of mind Confidence Rosabeth Moss Kanter, 2004-09-07 From the boardroom to the locker room to the living room how winners become winners and stay that way Is success simply a matter of money and talent Or is there another reason why some people and organizations always land on their feet while others equally talented stumble again and again There s a fundamental principle at work the vital but previously unexamined factor called confidence that permits unexpected people to achieve high levels of performance through routines that activate talent Confidence explains Why the University of Connecticut women s basketball team continues its winning ways even though recent teams lack the talent of their predecessors Why some companies are always positively perceived by employees customers Wall Street analysts and the media while others are under a perpetual cloud How a company like Gillette or a team like the Chicago Cubs ends a losing streak and breaks out of a circle of doom The lessons a politician such as Nelson Mandela who resisted the temptation to take revenge after being released from prison and assuming power offers for leaders in both advanced democracies and trouble spots like the Middle East From the simplest ball games to the most complicated business and political situations the common element in winning is a basic truth about people They rise to the occasion when leaders help them gain the confidence to do it Confidence is the new theory and practice of success explaining why success and failure are not mere episodes but self perpetuating trajectories Rosabeth Moss Kanter shows why organizations of all types may be brimming with talent but not be winners and provides people in leadership positions with a practical program for either maintaining a winning streak or turning around a downward spiral Confidence is based on an extraordinary investigation of success and failure in companies such as Continental Airlines Seagate and Verizon and sports teams such as the University of North Carolina women s soccer team New England Patriots and Philadelphia Eagles as well as schools health care and politics Packed with brilliant practical ideas such as powerlessness corrupts and the timidity of mediocrity Confidence provides fresh thinking for perpetuating winning streaks and ending losing streaks in all facets of life from the factors that can make or break corporations and governments to the keys for successful relationships in the workplace or at home
