[The Last New Dealer](#) Millard Grimes, 2020-09-25 In 1992 A no shot candidate runs for president in the New Hampshire Democratic Primary while telling the story of how the United States evolved from 13 small scattered quarreling British colonies along the Atlantic Coast into the most powerful nation in history With a definite clear and unique message the candidate and his handful of helpers who include a recovering alcoholic who once worked for Jimmy Carter's campaign a young waitress who was a star basketball player in high school but fell into a deep depression caused by an episode in her senior year a retired New Hampshire newspaper publisher plus some former employees from his years as a newspaper publisher he manages to win the most votes on Primary night He goes from New Hampshire to win the Maine caucus the Georgia Primary and following an assassination attempt which kills one of his associates he wins Florida and comes close in New York making him the leading candidate for the Democratic nomination The candidate stresses that the strong U S central government is still the best one ever conceived and that it is the answer not the problem and has been the essential factor in the nation's three great transformative crises the American Revolution in which the colonies declared independence from England The Civil War which established that the states were indeed one nation not just a collection of un united states and thirdly the New Deal which rescued the U S from economic depression prepared it to be the decisive power in winning World War II and laid the

foundation for the modern U S and to a great extent the modern world The threat of a third party effort by Ross Perot throwing the election to the House of Representative persuades him to withdraw and support the better financed and organized Bill Clinton for the November election This history is delivered in a dramatic fictional saga written in a newspaper style which makes it easy to digest for the average reader Its characters are well defined and its narrative plausible in the final analysis It is anti war pro democracy and advocates political campaigns without a lot of consultants and image makers
