

Reading a Horse's Ears

A horse's ears and actions are the key to their emotions. They can tell you what they are paying attention to and how they feel by the way they use their ears and the way they act. Here are some things to look out for...

**Ears forward
but relaxed**
Interested in
what's in front
of them.

**Ears turned
back but relaxed**
Listening to their
rider or what's
behind them.

**Ears pointed
stiffly forward**
Alarmed or nervous
about what's ahead,
looking out for danger.

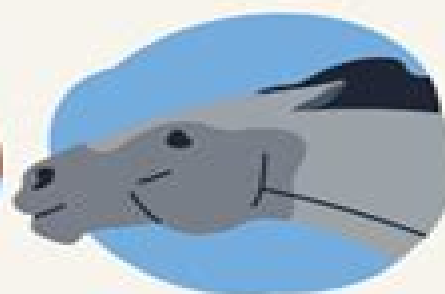

**Ears pointed
left and right**
Relaxed, paying
attention to scenery
on both sides.

Ears stiffly back
Annoyed or worried
about what's
behind them, might
kick if annoyed.

Droopy ears
Calm and
resting, horse
may be dozing.

**Ears flattened
against neck**
Showing the fear
response, signs of
aggression, may
fight, bite or kick.

Sad face
'Shutting down',
disinterested in
their surroundings.

Body Language Of Horses

A Gutmann

Body Language Of Horses:

When somebody should go to the books stores, search opening by shop, shelf by shelf, it is essentially problematic. This is why we offer the ebook compilations in this website. It will extremely ease you to look guide **Body Language Of Horses** as you such as.
