Burt Jr., 2016-11-10 When talking about the Enlightenment ornithology is seldom the first topic of conversation Still Enlightenment and ornithology converge in one important respect that of abundance In our time new wave ornithologists have renewed their faith in eighteenth century expectations for the discovery of a gigantic number of bird species It is at this intersection between abundant modern

science and ambitious Enlightenment ideology that this remarkable collection of five essays on Alexander Wilson 1766 1813 the father of American ornithology makes its original and delightful contribution Alexander Wilson Enlightened Naturalist recovers Wilson s literary artistic and musical pursuits and the cultural contexts of his life in the Scotland of Robert Burns It also explores Wilson s scientific and philosophic contribution to American ornithology in American Ornithology or The Natural History of the Birds of the United States published in Philadelphia between 1808 and 1814 Alexander Wilson is richly illustrated links to a web site of audio readings of Wilson s Scots poems links that are embedded in the ebook and includes a tribute to the late Edward H Burt Jr who died shortly before publication **Audubon's Birds of America: The Audubon Society Baby Elephant Folio** ,2013-09-02 A magnificent new printing of this classic edition of John James Audubon s masterwork In this latest printing of the Baby Elephant Folio edition of Audubon s Birds of America the thumbnail images accompanying the descriptive captions are printed in full color for the convenience of the reader This printing also features an attractive new binding cloth in a sumptuous teal color The Baby Elephant Folio presents all 435 of Audubon s brilliant hand colored engravings in exquisite reproductions derived from the original plates of the National Audubon Society s archival copy of the rare Double Elephant Folio Although many attempts have been made to re create the splendid illustrations in Audubon s masterpiece nothing has ever equaled the level of fidelity achieved in this luxurious edition Organized and annotated by Roger Tory Peterson and Virginia Marie Peterson and issued with the full endorsement and cooperation of the Audubon Society this volume is as informative as it is beautiful Its fascinating introduction places Audubon in the context of the history of American ornithological art and also reproduces a wide sampling of the work of his notable predecessors and disciples including Roger Tory Peterson s own rightfully famous paintings A new systematic arrangement of the prints following the modern classification of species and descriptive captions about each bird allow us to appreciate Audubon s achievement in the light of modern ornithology *Catalogue* Walters, Frank, Firm, Booksellers, New York,1926
