Bisexualities and AIDS Peter Aggleton, 1996 This book reviews from an international perspectives what has been learned about male bisexuality in countries as diverse as Peru and Britain The implications of such enquiry for HIV prevention efforts are also examined

Preventing HIV in Developing Countries Laura Gibney, Ralph J. DiClemente, Sten H. Vermund, 2006-04-11 Globally action to prevent HIV spread is inadequate Over 16 000 new infections occur every day Yet we are not helpless in the face of disaster as shown by the rich prevention experience analyzed in this valuable new compendium Best practice exists a set of tried and tested ways of slowing the spread of HIV of persuading and enabling people to protect themselves and others from the virus Individually features of best practice can be found almost everywhere The tragedy on a world scale is that prevention is spotty not comprehensive the measures are not being applied anywhere near the scale needed or with the right focus or synergy The national response may concentrate solely on sex workers for example Elsewhere efforts may go into school education for the young but ignore the risks and vulnerability of men who have sex with men Action may be patchy geographically AIDS prevention may not benefit from adequate commitment from all parts and sectors of society compromising the sustainability of the response In some countries matters are still worse there is still hardly any action at all against AIDS and scarcely any effort to make HIV visible It is no wonder that the epidemic is still emerging and in some places is altogether out of control

Sex, Work and Professionalism Katie Devereil, 2013-01-11

Sex Work and Professionalism examines what happens when professional concern is defined in terms of sex Based on original fieldwork with outreach workers in HIV prevention it addresses issues of professionalism emotion work and boundaries integrating empirical insights with sociological theory In most professional relationships sex is not defined as part of the relationship in fact it is explicitly excluded in guidelines and codes of ethics HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality They have to learn how to balance their work and professional lives overcoming conflicts such as professional role v community role sexual skills v sexual boundaries personal experiences v professional understanding professional identity v worldviews Many of the questions being raised in this book about the meaning of professionalism the pain and pleasure in emotion work and the management of boundaries between home sex and work are being asked more generally by workers in a range of organisations *Sex Work and Professionalism* argues for a new understanding of professionalism more appropriate to the human services

Latina/o Sexualities Marysol Asencio, 2010 Latina/os are currently the largest minority population in the United States They are also one of the fastest growing Yet we have very limited research and understanding of their sexualities Instead stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context Gathering the latest empirical work in the social and behavioral sciences this reader offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities Situated at the juncture of Latina/o studies and sexualities studies Latina/o Sexualities provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable
