Black Americans In Congress:

Black Faces, Black Interests Carol Miller Swain,1993 In this incisive book Carol Swain explores what strategies are most likely to lead to greater representation of black political interests She studies the constituency relations and roll call voting of black members of Congress from a variety of districts historically black newly black heterogeneous and primarily white and of white members from districts with either a black majority or a significant black minority She challenges the proposition that only African Americans can represent black interests effectively and argues that blacks must form coalitions with white representatives to serve black needs Swain has updated this edition with a new chapter entitled Black Congressional Representation since 1992

Fenno,2011-04-15 Thirty years ago there were nine African Americans in the U S House of Representatives Today there are four times that number In Going Home the dean of congressional studies Richard F Fenno explores what representation has meant and means today to black voters and to the politicians they have elected to office Fenno follows the careers of four black representatives Louis Stokes Barbara Jordan Chaka Fattah and Stephanie Tubbs Jones from their home districts to the halls of the Capitol He finds that while these politicians had different visions of how they should represent their districts in part based on their individual preferences and in part based on the history of black politics in America they shared crucial organizational and symbolic connections to their constituents These connections which draw on a sense of linked fates are ones that only black representatives can provide to black constituents His detailed portraits and incisive analyses will be important for anyone interested in the workings of Congress or in black politics

Black Americans in Congress Mark R. Salser,1991 African American Members of the United States Congress: 1870-2009 , **Black Faces in the Mirror** Katherine Tate,2004 Here Katherine

Tate examines the significance of race in the U S system of representative democracy for African Americans Presenting important new findings she offers the first empirical study to take up the question of representation from both sides of the constituent representative relationship The first half of the book examines whether black members of the U S House legislate and represent their constituents differently than white members do Representation is broadly conceptualized to include not only legislators roll call voting behavior and bill sponsorship but also the symbolic acts in which they engage The second half looks at the issue of representation from the perspective of ordinary African Americans based on a landmark national survey Tate s findings are mixed But in the main legislators race does shape how they represent their constituents and how constituents evaluate them African Americans view black representatives more positively than they do white representatives even those who belong to their own political party Black legislators however are just as likely as white representatives to sponsor and gain passage of bills in the House Tate also concludes that black House members are more liberal as a group than are their black constituents but that there is considerable divergence in the quality and type of representation they provide The findings reported here will generate controversy in the fields of politics law and race particularly as debate commences over renewing the Voting Rights Act which is set to expire in 2007 [Black Americans in Congress, 1870-2007 \(Paperback\)](#) Matthew Wasniewski, House (U.S.), Office of History and Preservation, 2009-07-14 Black Americans in Congress 1870 2007 is a comprehensive history of the more than 120 African Americans who have served in the United States Congress Written for a general audience this book contains a profile of each African American Member including notables such as Hiram Revels Joseph Rainey Oscar De Priest Adam Clayton Powell Shirley Chisholm Gus Hawkins and Barbara Jordan Individual profiles are introduced by contextual essays that explain major events in congressional and U S history The volume also features Pictures including rarely seen historical images of each African American who has served in Congress Bibliographies and references to manuscript collections for each Member Statistical graphs and charts Index
