Birth Of Melbourne:

The Birth of Melbourne Tim Fridtjof Flannery, 2004 In 1835 John Batman sailed up the Yarra and was astonished by the beauty of the land It was a temperate Kakadu teeming with wildlife and with soils rich enough to spawn pastoral empires With the discovery of gold the city was transformed almost overnight into marvellous Melbourne **John Batman** Joy Braybrook, 2012 John Batman An Inside Story of the Birth of Melbourne A Summary of the Story This book tells the story of how Melbourne was birthed It begins with Captain Cook s discovery of Australia and the colonisation that followed at Botany Bay The quest began to find a suitable location for another settlement in the south of the continent Although Port Phillip Bay was discovered its potential was not immediately realised The penal settlement established at Sorrento by David Collins in 1803 was abandoned within three months and the site of Hobart in Tasmania was chosen for the next development In 1824 the explorers Hume and Hovell travelled south from Sydney and reached Port Phillip Bay They recognised the potential of the area but unfortunately Hovell made a mistake regarding its location which impeded settlement for another eleven years Hume and Batman had been childhood friends and when Batman then living in Tasmania heard about the vast pasturelands available in the area it triggered the dream of taking possession of the land of plenty north of Bass Strait It would take another nine years before he could assemble a group of influential men to assist him in his quest to claim the riches waiting at Port Phillip Bay The plan was spearheaded by a group of four men supported by a larger group of investors Charles Swanston who owned the biggest bank in Australasia controlled the finances while Joseph Gellibrand a lawyer who had been Attorney General in Tasmania organised the legal requirements for the project John Wedge s role as surveyor was to map the territory ready for subdivision John Batman who was Australian born brought a large variety of skills to the drawing board He was thought to be Australia s greatest tracker he had captured bushrangers successfully gathered the remnant of Tasmanian Aborigines as well as being a wealthy landowner The political climate within the British Parliament at that time was influenced by the recent passage of the Act to Abolish Slavery in 1833 The outpouring of humanitarian feeling generated by this event led to new attitudes towards native rights and title Within the hearts of these men from Tasmania there developed a desire to establish a settlement that would not only bring them financial gain but also set a benchmark within the British Empire for equitable relationships between native peoples and Europeans To achieve such an ideal the notion of a treaty gradually developed modelled on William Penn s Treaty in Pennsylvania in 1683 Batman s role was to lead the expedition to Port Phillip explore the land and make a treaty with the local Aborigines Unfortunately the timing of this opportunity coincided with the news that he was seriously ill at just 32 years old The project became a race against his failing health and what was planned as a carefully thought out expedition became a hurried event John Batman in his barque the Rebecca finally passed through the heads into Port Phillip Bay in May 1835 the first white man to do so in three decades He was amazed at the quality of the land he found and the beauty of the magnificent harbour He needed to find the natives so he

could execute the treaty that Gellibrand had prepared for him However on seeing the European vessel entering the bay the Aborigines had sent up smoke signals telling everyone to hide until the clan leaders could meet and work out a strategy for dealing with the situation Eventually they approached Batman and took him to a ceremonial site they had chosen The treaty was duly executed but because of Batman's ill health it was not possible for him to enact all that Gellibrand had written into the pro forma deed When John Batman returned to Tasmania he was hailed as a hero and referred to as the Tasmanian Penn He called the settlement to be established by the treaty Batmania There was still much to be done since

Transitions Peter W. Newton,2008-09-09 Formidable challenges confront Australia and its human settlements the mega metro regions major and provincial cities coastal rural and remote towns The key drivers of change and major urban vulnerabilities have been identified and principal among them are resource constraints such as oil water food skilled labour and materials and carbon constraints linked to climate change and a need to transition to renewable energy both of which will strongly shape urban development this century *Transitions* identifies 21st century challenges to the resilience of Australia's cities and regions that flow from a range of global and local influences and offers a portfolio of solutions to these critical problems and vulnerabilities The solutions will require fundamental transitions in many instances to our urban infrastructures to our institutions and how they plan for the future and perhaps most of all to ourselves in terms of our lifestyles and consumption patterns With contributions from 92 researchers all leaders in their respective fields this book offers the expertise to chart pathways for a sustainability transition
