Fitness Planner Tutorial:

Designing the Fitness Program John LeCuyer, 2001 Public safety work is dangerous and the link between fitness and remaining injury free has been well established by research. Designing the Fitness Program examines the physical demands on public safety officers as well as an array of related health and safety issues. In proposing that each public safety organization implements a fitness program for its personnel, the author provides a variety of options for ensuring that the standards and test regimens adopted by a department are suitable both in terms of individual members and the roles that they fulfill. His unique thought provoking analysis of test protocols will help organizations avoid many of the pitfalls associated with modern labour laws and declaring anyone whether rehabilitated member or new recruit fit for duty.

Lesson Planning for Elementary Physical Education Shirley Holt/Hale, Tina J. Hall, 2016-02-29 Elementary school physical educators looking for expert guidance in designing lessons that are aligned with SHAPE America's National Standards and Grade Level Outcomes need look no further. Lesson Planning for Elementary Physical Education works in tandem with SHAPE America's National Standards Grade Level Outcomes for K-12 Physical Education and The Essentials of Teaching Physical Education to provide the knowledge base and practical strategies for creating high quality elementary physical education curricula.

Key Benefits Written by master teachers and edited by the team who oversaw the creation of the National Standards and Grade Level Outcomes Lesson Planning for Elementary Physical Education is endorsed by SHAPE America. The text has the following features:

- 65 lessons that foster the achievement of physical literacy for children in grades K-5
- Numerous learning experiences that engage students in the psychomotor, cognitive, and affective domains
- Curriculum design based on student growth
- Sequential lessons leading to mature patterns of motor performance
- An introductory chapter on the key points for the grade span putting the lessons in context and providing a road map for planning curriculum units and lessons
- Instruction on creating high quality lessons that reach the desired objectives
