 going back to the basics and writing out a simple checklist It will change your life The checklist is one of the world s oldest

 during the days of the Roman Empire allowing us to tangibly plan our day and set in stone what we want to accomplish There
 are countless apps and organizational systems promising to help us straighten out our lives but often they only add to the
 madness and leave us feeling drained and overwhelmed Learn how to Choose your highest priorities Set realistic goals
 Celebrate tiny wins Feel calmer every day By physically writing down our tasks on a single piece of paper we force ourselves
 to be realistic and limit how much we can do in a day Too often we cram our day with tasks and chores and leave almost no
 space for self care or time with loved ones We end up disappointed in our inability to complete our never ending to do list

promoting and restoring health especially for those with chronic symptoms or poor health conditions Many mind body exercises such as Taichi Qigong Chan Chuang and Yoga have their roots in Eastern cultures They have gained popularity around the world and became a new fashion in the post COVID 19 era These exercises typically help practitioners shift their focus from the outside world past or future to the present moment through gentle body movements Mind body exercises emphasize the body s innate ability to heal itself By disconnecting from the noisy outside world the body is given the opportunity to heal This aligns with the classic belief in Chinese medicine that the body itself is the best medicine
