Almost all the countries are working on their climate policy to do their part in reducing carbon emissions. Many global conferences and events have been happened in the past 50 years to control the global temperature rise. But still there is no evidence of significant improvement in reducing our global carbon emissions. Some of you might have thought about your role in combating climate change. To answer this we came up with this book which will help you to understand your carbon footprint and the possible ways to reduce the same. We have covered some of the products, events and activities in this book with which you can find the carbon footprint of the products which aren't covered in this book. Bill Bryson *Reduce your carbon footprint and understand the issue with this up to date life guide for carbon conscious readers* Kirkus *Calculate your carbon footprint with an item by item breakdown. Meet your company's carbon goals using the latest research. Covid 19 and the carbon battle. Understand the new global supply chain. Supported by solid research, cross-referenced with other expert sources, illustrated with easy to follow charts and graphs and written with Berners-Lee's trademark sense of humor. The Carbon Footprint of Everything should be on everyone's bookshelf. The Carbon Footprint of Everything is an extensively revised and updated edition of *How Bad Are Bananas** *Our Carbon Footprint* Carol Sutters, 2021-02-28 Book is suitable for 6-11 year old.
