Animal Species And Their Evolution

Minjie Lin

Animal Species And Their Evolution:

Animal Species and Their Evolution Arthur James Cain, 1968 Animal Species and Their Evolution A. J.

Cain, 2014-07-14 Long before Charles Darwin undertook his first voyage animal taxonomists had begun the scientific classification of animals plants and minerals In the mid 1950s taxonomist A J Cain summarized the state of knowledge about the structure of the living world in his major book *Animal Species and Their Evolution* His work remains remarkably current today Here Cain explains each of the terms by which scientists now classify all animals from species through genus family order class and phylum The work of the modern taxonomist is dependent on the work of paleontologists field biologists ecologists and other specialists who help piece together the puzzle of nature This seminal text will interest students in each of these areas It will also appeal to historians of science and to all amateur scientists with an interest in the animal kingdom Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Animal Species and Their Evolution** Arthur J.

Cain, 1968 **Animals in the Sociologies of Westermarck and Durkheim** Salla Tuomivaara, 2019-09-04 This book explores why animals at some point disappeared from the realm and scope of sociology The role of sociology in the construction of a science of the human has been substantial building representations of the human sphere of life as unique Within the sociological tradition however animals have often been invisible even non existent Through in depth comparisons of the texts of prominent early sociologists Emile Durkheim and Edward Westermarck Tuomivaara shows that despite this exclusion representations of animals and human animal relations were far more varied in early works than in the later sociological cannon Addressing a significant gap in the interdisciplinary field of animal studies Tuomivaara presents a close reading of the historical treatment of animals in the works of Durkheim and Westermarck to determine how the human animal boundary was established in sociological theory The diverse forms in which animals and the animal appear in the works of early classical sociology are charted and explored alongside the sociological themes that bring animals into these texts Situated in contemporary theory from critical animal studies to posthumanism this important book lays the groundwork for a disciplinary shift away from this sharp human animal dualism Encyclopedia of Animal Behavior , 2019-01-21

Encyclopedia of Animal Behavior Second Edition Four Volume Set the latest update since the 2010 release builds upon the solid foundation established in the first edition Updated sections include Host parasite interactions Vertebrate social behavior and the introduction of overview essays that boost the book s comprehensive detail The structure for the work is modified to accommodate a better grouping of subjects Some chapters have been reshuffled with section headings combined

or modified Represents a one stop resource for scientifically reliable information on animal behavior Provides comparative approaches including the perspective of evolutionary biologists physiologists endocrinologists neuroscientists and psychologists Includes multimedia features in the online version that offer accessible tools to readers looking to deepen their understanding

EVOLUTION Michael Ruse, Joseph Travis, 2009-01-01 Spanning evolutionary science from its inception to its latest findings from discoveries and data to philosophy and history this book is the most complete authoritative and inviting one volume introduction to evolutionary biology available Clear informative and comprehensive in scope Evolution opens with a series of major essays dealing with the history and philosophy of evolutionary biology with major empirical and theoretical questions in the science from speciation to adaptation from paleontology to evolutionary development evo devo and concluding with essays on the social and political significance of evolutionary biology today A second encyclopedic section travels the spectrum of topics in evolution with concise informative and accessible entries on individuals from Aristotle and Linnaeus to Louis Leakey and Jean Lamarck from T H Huxley and E O Wilson to Joseph Felsenstein and Motoo Kimura and on subjects from altruism and amphibians to evolutionary psychology and Piltdown Man to the Scopes trial and social Darwinism Readers will find the latest word on the history and philosophy of evolution the nuances of the science itself and the intricate interplay among evolutionary study religion philosophy and society Appearing at the beginning of the Darwin Year of 2009 the 200th anniversary of the birth of Charles Darwin and the 150th anniversary of the publication of the Origin of Species this volume is a fitting tribute to the science Darwin set in motion

Encyclopedia of Evolutionary Biology, 2016-04-14 Encyclopedia of Evolutionary Biology Four Volume Set is the definitive go to reference in the field of evolutionary biology It provides a fully comprehensive review of the field in an easy to search structure Under the collective leadership of fifteen distinguished section editors it is comprised of articles written by leading experts in the field providing a full review of the current status of each topic The articles are up to date and fully illustrated with in text references that allow readers to easily access primary literature While all entries are authoritative and valuable to those with advanced understanding of evolutionary biology they are also intended to be accessible to both advanced undergraduate and graduate students Broad topics include the history of evolutionary biology population genetics quantitative genetics speciation life history evolution evolution of sex and mating systems evolutionary biogeography evolutionary developmental biology molecular and genome evolution coevolution phylogenetic methods microbial evolution diversification of plants and fungi diversification of animals and applied evolution Presents fully comprehensive content allowing easy access to fundamental information and links to primary research Contains concise articles by leading experts in the field that ensures current coverage of each topic Provides ancillary learning tools like tables illustrations and multimedia features to assist with the comprehension process

Encyclopedia of Human Evolution and Prehistory Eric Delson, Ian Tattersall, John Van Couvering, Alison S. Brooks, 2004-11-23 Praise for the first edition The most up to date and wide ranging encyclopedia work

on human evolution available American Reference Books Annual For student researcher and teacher the most complete source of basic information on the subject Nature A comprehensive and authoritative source filling a unique niche essential to academic libraries important for large public libraries Booklist RBB **The Evolution of Life** Corinne Fortin,Julie Gobert,2024-07-11 The aim of this collective work is to give an account of the topicality and dynamics of new research in the didactics of evolution by articulating francophone and international work The various contributions pursue a reflection on the challenges of teaching and learning about evolution based on historical epistemological and societal approaches The themes addressed illustrate the vitality and diversity of research issues in educational sciences from primary school to university Structured around different theoretical fields problematization didactics of the curriculum nature of science etc this book explores the content teaching and learning processes and approaches teaching practices as well as pre service and in service teacher training with a view to both intelligibility and feasibility **Animal Species and Evolution** Ernst Mayr,1963
