Patch Clamp Technique Fatima Shad Kaneez, 2012-03-23 This book is a stimulating and interesting addition to the collected works on Patch clamp technique Patch Clamping is an electrophysiological technique which measures the electric current generated by a living cell due to the movement of ions through the protein channels present in the cell membrane

The technique was developed by two German scientists Erwin Neher and Bert Sakmann who received the Nobel Prize in 1991 in Physiology for this innovative work Patch clamp technique is used for measuring drug effect against a series of diseases and to find out the mechanism of diseases in animals and plants It is also most useful in finding out the structure function activities of compounds and drugs and most leading pharmaceutical companies used this technique for their drugs before bringing them for clinical trial This book deals with the understanding of endogenous mechanisms of cells and their receptors as well as advantages of using this technique It covers the basic principles and preparation types and also deals with the latest developments in the traditional patch clamp technique Some chapters in this book take the technique to a next level of modulation and novel approach This book will be of good value for students of physiology neuroscience cell biology and biophysics

Neural Information Processing Nikil R. Pal, Nikola Kasabov, Rajani K. Mudi, Srimanta Pal, Swapan K. Parui, 2004-10-29 It is our great pleasure to welcome you to the 11th International Conference on Neural Information Processing ICONIP 2004 to be held in Calcutta ICONIP 2004 is organized jointly by the Indian Statistical Institute ISI and Jadavpur University JU We are confident that ICONIP 2004 like the previous conferences in this series will provide a forum for fruitful interaction and the exchange of ideas between the participants coming from all parts of the globe ICONIP 2004 covers all major facets of computational intelligence but of course with a primary emphasis on neural networks We are sure that this meeting will be enjoyable academically and otherwise We are thankful to the track chairs and the reviewers for extending their support in various forms to make a sound technical program Except for a few cases where we could get only two review reports each submitted paper was reviewed by at least three referees and in some cases the revised versions were again checked by the referees We had 470 submissions and it was not an easy task for us to select papers for a four day conference Because of the limited duration of the conference based on the review reports we selected only about 40% of the contributed papers Consequently it is possible that some good papers are left out We again express our sincere thanks to all referees for accomplishing a great job In addition to 186 contributed papers the proceedings includes two plenary presentations four invited talks and 18 papers in four special sessions The proceedings is organized into 26 coherent topical groups
