Anmerkungen Zu Hitler:

Anmerkungen zu Hitler, 1980 **Hitler's Fatal Miscalculation** Klaus Schmider, 2021-01-28 Challenges long held assumptions regarding the German declaration of war on the United States in December 1941 *Legacies of Dachau* Harold Marcuse, 2001-03-22 Auschwitz Belsen Dachau These names still evoke the horrors of Nazi Germany around the world This 2001 book takes one of these sites Dachau and traces its history from the beginning of the twentieth century through its twelve years as Nazi Germany's premier concentration camp to the camp's postwar uses as prison residential neighborhood and finally museum and memorial site With superbly chosen examples and an eye for telling detail *Legacies of Dachau* documents how Nazi perpetrators were quietly rehabilitated to become powerful elites while survivors of the concentration camps were once again marginalized criminalized and silenced Combining meticulous archival research with an encyclopedic knowledge of the extensive literatures on Germany the Holocaust and historical memory Marcuse unravels the intriguing relationship between historical events individual memory and political culture to offer a unified interpretation of their interaction from the Nazi era to the twenty first century **Hitler: 1936-1945 Nemesis** Ian Kershaw, 2001-09-17 The climax and conclusion of one of the best selling biographies of our time The New Yorker declared the first volume of Ian Kershaw's two volume masterpiece as close to definitive as anything we are likely to see and that promise is fulfilled in this stunning second volume As *Nemesis* opens Adolf Hitler has achieved absolute power within Germany and triumphed in his first challenge to the European powers Idolized by large segments of the population and firmly supported by the Nazi regime Hitler is poised to subjugate Europe Nine years later his vaunted war machine destroyed Allied forces sweeping across Germany Hitler will end his life with a pistol shot to his head More probing more judicious more authoritative in its rich detail more commanding in its mastery of the horrific narrative Milton J Rosenberg Chicago Tribune *Hitler: Ascent* Volker Ullrich, 2017-10-24 NEW YORK TIMES BESTSELLER This landmark biography of Hitler puts an emphasis on the man himself his personality his temperament and his beliefs A fascinating Shakespearean parable about how the confluence of circumstance chance a ruthless individual and the willful blindness of others can transform a country and in Hitler's case lead to an unimaginable nightmare for the world Michiko Kakutani The New York Times Volker Ullrich's *Hitler* the first in a two volume biography has changed the way scholars and laypeople alike understand the man who has become the personification of evil Drawing on previously unseen papers and new scholarly research Ullrich charts Hitler's life from his childhood through his experiences in the First World War and his subsequent rise as a far right leader Focusing on the personality behind the policies Ullrich creates a vivid portrait of a man and his megalomania political skill and horrifying worldview *Hitler* is an essential historical biography with unsettling resonance in contemporary times **Rethinking Fascism** Di Michele Andrea, Filippo Focardi, 2022-01-19 This book takes up the stimuli of new international historiography albeit focusing mainly on the two regimes that undoubtedly provided the model for Fascist movements in Europe namely the

Italian and the German Starting with a historiographical assessment of the international situation vis vis studies on Fascism and National Socialism and then concentrate on certain aspects that are essential to any study of the two dictatorships namely the complex relationships with their respective societies the figures of the two dictators and the role of violence This volume reaches beyond the time frame encompassing Fascism and National Socialism experiences directing the attention also toward the period subsequent to their demise This is done in two ways On the one hand examining the uncomfortable architectural legacy left by dictatorships to the democratic societies that came after the war On the other hand the book addresses an issue that is very much alive both in the strictly historiographical and political science debate that is to say to what extent can the label of Fascism be used to identify political phenomena of these current times such as movements and parties of the so called populist and souverainist right *Hitler's Court* Heike B. Görtemaker, 2022-01-12 This revelatory history examines the loyal inner circle that followed and enabled Hitler's rise to power and continued on after WWII Hitler was not a lonely aloof dictator Throughout his rise in the NSDAP he gathered a loyal circle around him and was surrounded by people who celebrated flattered and intrigued him Who belonged to this inner circle around Hitler What function did this court fulfill And how did it influence the perception of history after 1945 Using previously unknown sources Heike Görtemaker explores Hitler's private environment and shows how this inner circle made him who he was Hitler's inner circle the Berghof Society was his private retreat But the court was more than that It provided him with the support he needed to take on the role of Führer at all while at the same time allowing him to use its members as political front men Most of all it represented a conspiratorial community whose lowest common denominator was anti-Semitism In this book Heike Görtemaker asks new questions about the truth behind Hitler's inner circle and for the first time also examines the circle without leaders the networking of the inner circle after 1945 *Hitler, the Germans, and the Final Solution* Ian Kershaw, 2008-05-28 This volume presents a comprehensive multifaceted picture both of the destructive dynamic of the Nazi leadership and of the attitudes and behavior of ordinary Germans as the persecution of the Jews spiraled into total genocide

Hitler's Theology Rainer Bucher, 2011-06-30 Hitler's Theology investigates the use of theological motifs in Adolf Hitler's public speeches and writings and offers an answer to the question of why Hitler and his theological ideology were so attractive and successful presenting an alternative to the discontents of modernity The book gives a systematic reconstruction of Hitler's use of theological concepts like providence belief or the almighty God Rainer Bucher argues that Hitler's abuse of theological ideas is one of the main reasons why and how Hitler gained so much acquiescence and support for his diabolic enterprise This fascinating study concludes by contextualizing Hitler's theology in terms of a wider theory of modernity and in particular by analyzing the churches struggle with modernity Finally the author evaluates the use of theology from a practical theological perspective This book will be of interest to students of Religious Studies Theology Holocaust Studies Jewish Studies Religion and Politics and German History **Hitler's Plans for Global Domination**

Jochen Thies, 2012-08-01 What did Hitler really want to achieve world domination In the early twenties Hitler was working on this plan and from 1933 on was working to make it a reality During 1940 and 1941 he believed he was close to winning the war This book not only examines Nazi imperial architecture armament and plans to regain colonies but also reveals what Hitler said in moments of truth The author presents many new sources and information including Hitler s little known intention to attack New York City with long range bombers in the days of Pearl Harbor
