Heresy and Borders in the Twentieth Century Karina Jakubowicz,Robert Dickins,2021-03-10 This book explores the shifting and negotiated boundaries of religion spirituality and secular thinking in Britain and North America during the twentieth century It contributes to a growing scholarship that problematises secularization theory arguing that religion and spirituality increasingly took diverse new forms and identities rather than simply being replaced by a monolithic secularity The volume examines the way that thinkers writers and artists manipulated and reimagined orthodox belief systems in their work using the notion of heresy to delineate the borders of what was considered socially and ethically acceptable It includes topics such as psychospiritual approaches in medicine countercultures and religious experience and the function of blasphemy within supposedly secular politics The book argues that heresy and heretical identities established fluid borderlands These borderlands not only blur simple demarcations of the religious and secular in the twentieth century but also infer new forms of heterodoxy through an exchange of ideas This collection of essays offers a nuanced take on a topic that pervades the study of religion It will be of great use to scholars of Heresy Studies Religious Studies and Comparative Religion Social Anthropology History Literature Philosophy and Cultural Studies **'Clothed with the sun', the book of the illuminations of A. Kingsford, ed. by E. Maitland** Anna Bonus Kingsford,1889

Cursed Britain Thomas Waters,2019-10-07 The definitive history of how witchcraft and black magic have survived through the modern era and into the present day Cursed Britain unveils the enduring power of witchcraft curses and black magic in modern times Few topics are so secretive or controversial Yet whether in the 1800s or the early 2000s when disasters struck or personal misfortunes mounted many Britons found themselves believing in things they had previously dismissed dark supernatural forces Historian Thomas Waters here explores the lives of cursed or bewitched people along with the witches and witch busters who helped and harmed them Waters takes us on a fascinating journey from Scottish islands to the folklore rich West Country from the immense territories of the British Empire to metropolitan London We learn why magic caters to deep seated human needs but see how it can also be abused and discover how witchcraft survives by evolving and changing Along the way we examine an array of remarkable beliefs and rituals from traditional folk magic to diverse spiritualities originating in Africa and Asia

This is a tale of cynical quacks and sincere magical healers depressed people and furious vigilantes innocent victims and rogues who claimed to possess evil abilities Their spellbinding stories raise important questions about the state's role in regulating radical spiritualities the fragility of secularism and the true nature of magic *The Place of Enchantment* Alex Owen, 2006-12-15 By the end of the nineteenth century Victorians were seeking rational explanations for the world in which they lived The radical ideas of Charles Darwin had shaken traditional religious beliefs Sigmund Freud was developing his innovative models of the conscious and unconscious mind And anthropologist James George Frazer was subjecting magic myth and ritual to systematic inquiry Why then in this quintessentially modern moment did late Victorian and Edwardian men and women become absorbed by metaphysical quests heterodox spiritual encounters and occult experimentation In answering this question for the first time *The Place of Enchantment* breaks new ground in its consideration of the role of occultism in British culture prior to World War I Rescuing occultism from its status as an irrational indulgence and situating it at the center of British intellectual life Owen argues that an involvement with the occult was a leitmotif of the intellectual avant garde Carefully placing a serious engagement with esotericism squarely alongside revolutionary understandings of rationality and consciousness Owen demonstrates how a newly psychologized magic operated in conjunction with the developing patterns of modern life She details such fascinating examples of occult practice as the sex magic of Aleister Crowley the pharmacological experimentation of W B Yeats and complex forms of astral clairvoyance as taught in secret and hierarchical magical societies like the Hermetic Order of the Golden Dawn Through a remarkable blend of theoretical discussion and intellectual history Owen has produced a work that moves far beyond a consideration of occultists and their world Bearing directly on our understanding of modernity her conclusions will force us to rethink the place of the irrational in modern culture An intelligent well argued and richly detailed work of cultural history that offers a substantial contribution to our understanding of Britain Nick Freeman Washington Times **The Trial of Woman** D. Basham, 1992-01-14 *The Trial of Woman* examines the impact of the nineteenth century Occult Revival on the Victorian Women's Movement both in the lives of individual women and in the literature surrounding the Woman Question The book explores the Victorian Myth of Occult Womanhood and argues that the notion of female occult power was deeply influenced by the advent of Mesmerism Spiritualism and Theosophy This myth was itself a determining factor in women's struggle for legal and political rights
