Improving Equity in Mental Health Research, Treatment, and Policy Edmund Howe, Virginia A. Brown, Lexi C.

White, Julia Knopes, Joanne Suarez, 2025-10-14 Centering the perspectives of people living with serious mental illness from the research question to data analysis to dissemination of findings can improve our understanding of how to best meet the needs of those living with a range of psychiatric conditions Thus elevating the voices of persons with lived experience is central to closing the discovery gap from the bench to the bedside to the community thereby improving the health and health care of all involved In this Research Topic we seek to explore research that focuses on mental health policy and clinical and community health based interventions intended to better meet the needs of persons whose experiences are too frequently omitted We invite submissions that assess ethical challenges and opportunities around the inclusion of people with serious mental illness in all stages of the research process including design data collection analysis and dissemination of findings Furthermore this call seeks to include persons Living with mental health conditions that are invisible to others From underrepresented communities e g Black Latinx LGBTQ Whose values and experiences around mental illness are informed by cultural beliefs beyond biomedicine Whose access to care is limited by either geography i e urban suburban rural or whose access to care can vary depending on their regional national or international setting The guest editors for this upcoming issue of Frontiers in Psychiatry are committed to the inclusion of underrepresented issues authors and perspectives to further public discourse as we strive to improve the health and health care of people living with mental illness We encourage authors to submit a range of article types including original research editorials brief research report and mini reviews focusing on cutting edge innovations in preventing treating and improving mental health care for persons living with mental illness These contributions may include recent therapeutic developments at the forefront of psychiatric care as well as emerging topics As guest editors we strive for inclusion we welcome all identities appreciate and respect individual values and convictions and welcome authors with diverse perspectives experiences and backgrounds We hope to offer new challenges and insights for policymakers and mental health providers alike that will guide their work both now and into the future New Medicalism and the Mental Health Act John Fanning, 2018-08-09 Ten years have passed since the Mental Health Act MHA 2007 came into force in England An amending statute the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders Primarily driven by concerns about risk it sought to remove legalistic obstacles to civil commitment and extend the law s coercive reach into the community At the time of its

introduction the 2007 Act was written off as a retrograde step and a missed opportunity for radical rights focused reform Despite this little attention has been paid to its impact in the years since Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism new legalism and medicalism It therefore makes the case for a new model new medicalism to account for the 2007 Act s enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk In doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk explores the theoretical foundations of new medicalism considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act s practical impact

Mental Health and Work: New Zealand OECD, 2018-12-13 Tackling mental health problems of the working age population is a key issue for labour market and social policies in OECD countries not just for health systems Governments increasingly recognise that policy has a major role to play in keeping people with mental health conditions *A New Era for Mental Health Law and Policy* Piers Gooding, 2017-10-13 The Convention on the Rights of Persons with Disabilities CRPD has generated new ideas and standards in healthcare and disability law and policy In the mental health context the CRPD directs governments to ensure people with mental impairments are treated equally before the law including ensuring people have access to the resources necessary to enjoy their rights But what this means in practice remains unclear In addition current domestic laws that authorise involuntary psychiatric interventions stand at cross purposes with the CRPD which requires respect for the will preference and rights of persons with disabilities on an equal basis with others This book explores the implications of the CRPD for law policy and practice that respond to the complex issues raised by mental health impairment and disability It argues that the support framework of the CRPD holds the potential to address persistent shortcomings in mental health law and policy

New Law and Ethics in Mental Health Advance Directives Penelope Weller, 2013 The recognition of positive rights and the growing impact of human rights principles has recently orchestrated a number of reforms in mental health law bringing increasing entitlement to an array of health services In this book Penelope Weller considers the relationship between human rights and mental health law and the changing attitudes which have led to the recognition of a right to demand treatment internationally Weller discusses the ability of those with mental health problems to use advance directives to make a choice about what treatment they receive in the future should they still be unable to

decide for themselves Focusing on new perspectives offered by the Conventions on the Rights of Persons with Disabilities CRPD Weller explores mental health law from a variety of international perspectives including Canada Australia New Zealand and the United Kingdom where policies differ depending on whether you are in England and Wales or Scotland These case studies indicate how human rights perspectives are shifting mental health law from a constricted focus upon treatment refusal towards a recognition of positive rights The book covers topics including refusing treatment new approaches in human rights international perspectives in mental health law the right to demand treatment The text will appeal to legal and mental health professionals as well as academics studying mental health law and policy makers

Mental Health Atlas 2005 World Health Organization. Department of Mental Health and Substance Abuse, World Health Organization. Mental Health Evidence and Research Team, 2005 This atlas is aimed at collecting compiling and disseminating information on mental health resources in the world It presents updated and expanded information from 192 countries with analyses of global and regional trends as well as individual country profiles Newly included in this volume is a section on epidemiology within the profiles of all low and middle income countries It shows that mental health resources within most countries remain inadequate despite modest improvements since 2001 Availability of mental health resources across countries and between regions remains substantially uneven with many countries having few resources The atlas reinforces the urgent need to enhance mental health resources within countries
