Brown Land Crying:

Fear and Temptation Terry Goldie, 1993 Goldie skillfully reveals the ambivalence of white writers to indigenous culture through an examination of the stereotyping involved in the creation of the image of the Other The treacherous redskin and the Indian maiden embodiments of violence and sex also evoke emotional signs of fear and temptation of white repulsion from and attraction to the indigene and the land Goldie suggests that white culture deeply attracted to the impossible idea of becoming indigenous either rejects native land claims and denies recognition of the original indigenes or incorporates these claims into white assertions of native status After comparing the works of Canadian author Rudy Wiebe and Australian author Patrick White Goldie concludes by linking the results of his literary analysis to wider cultural concerns particularly land rights He shows that literary views of natives both positive and negative emphasize the same characteristics and he suggests that escape from this limited vision may open the door to solving the problems of native sovereignty **Village of**

Tears Christopher Abbott, 2014-03 In a sleepy town in rural northern New Jersey a secret signed in blood has been locked away since the Civil War When brother fought brother a young slave Franklin Carver made a desperate and arduous journey to find freedom in the North But when he finally reached pastoral Promise New Jersey he was tragically betrayed Almost 150 years later an apathetic patent lawyer Caleb Magellan stumbles into the midst of Promise's eerily exclusive community of wealthy residents The ghosts of their ancestors provide the first clues that lead Caleb along Franklin Carver's dark and twisted path to a truth that threatens to shatter a nation's very conscience That is unless the good people of Promise along with their powerful patriarch Maximilian McCoy who have everything to lose get to Caleb first Polysituatedness John Kinsella, 2017-01-31 This book is concerned with the complexities of defining place of observing and seeing place and how we might write a poetics of place From Kathy Acker to indigenous Australian poet Jack Davis the book touches on other writers and theorists but in essence is a hands on praxis book of poetic practice The work extends John Kinsella's theory of international regionalism and posits new ways of reading the relationship between place and individual between individual and the natural environment and how place occupies the person as much as the person occupies place It provides alternative readings of writers through place and space especially Australian writers but also non Australian Further close consideration is given to being of famine migrant Irish heritage and the complexities of returning A close up examination of belonging and exclusion is made on a day to day basis The book offers an approach to creating poems and literary texts constituted by experiencing multiple places developing a model of polyvalent belonging known as polysituatedness It works as a companion volume to Kinsella's earlier Manchester University Press critical work *Disclosed Poetics Beyond Landscape to Lyricism*

After the Trail of Tears William G. McLoughlin, 2014-07-01 This powerful narrative traces the social cultural and political history of the Cherokee Nation during the forty year period after its members were forcibly removed from the southern Appalachians and resettled in what is now Oklahoma In this master work completed just before his death William

McLoughlin not only explains how the Cherokees rebuilt their lives and society but also recounts their fight to govern themselves as a separate nation within the borders of the United States Long regarded by whites as one of the civilized tribes the Cherokees had their own constitution modeled after that of the United States elected officials and legal system Once re settled they attempted to reestablish these institutions and continued their long struggle for self government under their own laws an idea that met with bitter opposition from frontier politicians settlers ranchers and business leaders After an extremely divisive fight within their own nation during the Civil War Cherokees faced internal political conflicts as well as the destructive impact of an influx of new settlers and the expansion of the railroad McLoughlin brings the story up to 1880 when the nation s fight for the right to govern itself ended in defeat at the hands of Congress The Silent Cry Dorothee Sölle,2001 Today a kind of Rdemocratized mysticismS of those without much religious background flourishes This mystical experience is not drawn so much of the tradition as out of contemporary experiences In that sense each of us is a mystic and Soelle s work seeks to give theological depth clarity and direction This work conveys Soelle s deep religious knowledge and wisdom with her passion for social justice Mr. G's Battle Cry! La Causa De La Raza Wants You Javier Gomez,2018-07-13 A wave of revolution swept across the United States in the sixties and the seventies And across California Cesar Chavez sparked the Chicano civil rights movement in the barrio giving prominence to new leaders new voices and new demands for freedom from injustice and oppression For young Javier Gomez this battle cry would be the beginning of a fight to stand up to injustice in his home of East LA In Mr Gs Battle Cry author and civil rights activist Javier Gomez chronicles his march into the streets of East LA and beyond as he and his Chicano and Chicana brothers and sisters take up the cause of the civil rights movement and create hope for a better futureagainst great odds Gomez also explores the history of his people showing how their culture and their spirit was renewed during this historic era of equality and justice Javier Gomez was inspired by the Chicano civil rights movement and today his battle cry endures Mr Gs Battle Cry gives voice to the enlightened individuals who fought side by side at protests and in the streets against the institutions of injustice that sought to keep the people silent And today this cultural revolution has left a living legacy of change progress and hope *Battle Cry of Freedom* James M. McPherson,2003-12-11 Filled with fresh interpretations and information puncturing old myths and challenging new ones Battle Cry of Freedom will unquestionably become the standard one volume history of the Civil War James McPherson s fast paced narrative fully integrates the political social and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox Packed with drama and analytical insight the book vividly recounts the momentous episodes that preceded the Civil War the Dred Scott decision the Lincoln Douglas debates John Brown s raid on Harper s Ferry and then moves into a masterful chronicle of the war itself the battles the strategic maneuvering on both sides the politics and the personalities Particularly notable are McPherson s new views on such matters as the slavery expansion issue in the 1850s the origins of the Republican Party the causes of secession internal dissent and

anti war opposition in the North and the South and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self determination and self government for which their fathers had fought in 1776 while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually the North had to grapple with the underlying cause of the war: slavery and adopt a policy of emancipation as a second war aim. This new birth of freedom as Lincoln called it constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing second American Revolution we call the Civil War: a war that transformed a nation and expanded our heritage of liberty. **Australian Books in Print**, 1987. Life at the Margins in Early Modern Scotland Aaron M.

Allen, 2024. An exploration of the diverse lived experiences of marginality in Scottish society from the sixteenth to the eighteenth century. Throughout the early modern period Scottish society was constructed around an expectation of social conformity: people were required to operate within a relatively narrow range of acceptable identities and behaviours. Those who did not conform to this idealised standard or who were in some fundamental way different from the prescribed norm were met with suspicion. Such individuals often attracted both criticism and discrimination, forcing them to live confined to the social margins. Focusing on a range of marginalised groups including the poor, migrants, ethnic minorities, indentured workers and women, the contributors to this book explore what it was like to live at the boundaries of social acceptability, what mechanisms were involved in policing the divide between mainstream and marginal and what opportunities existed for personal or collective fulfilment. The result is a fresh perspective on early modern Scotland, one that not only recovers the stories of people long excluded from historical discussion but also offers a deeper understanding of the ordering assumptions of society more generally. Specific topics addressed range from the marginalisation of people with disabilities in the domestic sphere to female sex workers and the place of executioners in society. **THE UNHEARD CRY OF THE IGBO PEOPLE**

KENNETH CHIGBO, 2011-03-21. In this book, which itself is the outcome of an Award winning research work, Fr Chigbo utilized the resources in Rabbi Abraham Joshua Heschel's *Meta psychology of the Meaning of Human Life* to study the Phenomena of the proliferation of prayer and healing ministries in Igboland. He states: "The religious and spiritual world outlooks of Ndi Igbo predisposed them to seek for meaning of life in a religious spiritual setting. The double assaults of the invasive colonialism and Christian Missionary exploits, as well as these catastrophes: slavery and slave trade, the Nigerian Biafran war, Neo Colonialism, the exploitation, marginalization and oppression of the Igbo people motivated them to raise questions about the fundamental quality of being human: who am I and what is the meaning of my life. The economic hardship, political instability and the attack on fundamental Igbo cultural heritage also joined forces with the other factors mentioned above to cause existential frustration and existential vacuum within the Igbo population. The author developed and explored what he calls Heschelian Diagnostic Tool as well as the ten psycho-pastoral phases in the search for the meaning in Human

life He proposed a new vision for prayer and healing ministry which is centered on the empowerment of each individual person to respond responsibly to the demand quality of life to engage in actions that are responses to the questions life poses before each unique individual This is an invaluable resource for all those involved or interested in the diverse field of pastoral care
