From Nursery Rhymes to Nationhood Elizabeth Galway,2010-12-22 As Canada came to terms with its role as an independent nation following Confederation in 1867 there was a call for a literary voice to express the needs and desires of a new country Children s literature was one of the means through which this new voice found expression Seen as a tool for both entertaining and educating children this material is often overtly propagandistic and nationalistic and addresses some of the key political economic and social concerns of Canada as it struggled to maintain national unity during this time *From Nursery Rhymes to Nationhood* studies a large variety of children s literature written in English between 1867 and 1911 revealing a distinct interest in questions of national unity and identity among children s writers of the day and exploring the influence of American and British authors on the shaping of Canadian identity The visions of Canada expressed in this material are often in competition with one another but together they illuminate the country s attempts to define itself and its relation to the world outside its borders *Legends of the Capilano* E. Victorian Traffic Sue Thomas, 2009-05-05 Organised around the themes Home and Abroad Performative Traffic and Image Circulation Mobility Victorian Traffic Identity Performance Exchange variously addresses the cultural dimensions of traffic in the long Victorian period cross cultural experience colonial and racial imaginaries everyday literary autobiographical and professional stagings of identity and trade in metaphors communications texts images celebrity character types and quilts The concept of traffic underpins historical interpretation and theoretical formulations and the rhetorics of trade in Victorian usage are contextualised Understandings of identity emphasise the performative and the negotiation of agency in relation to social and cultural scriptings of gender class ethnicity and community The essays have a wide global range and reach This collection of essays takes as its theme an enormously important concept for the nineteenth century traffic a term that in a time of unprecedented commercial and imperial expansion technological developments population growth and urbanization acquired new resonance and came to signify the intensely transactional nature of modernity One of Ruskin's most searing critiques of the spiritual condition of England an invited lecture he delivered in 1864 on the topic of the Bradford Exchange is entitled Traffic and the word clearly signifies for him all that is wrong with post industrial capitalism But this stimulating volume encompasses a range of other significations that have additionally come to accrue around the term relating for example to inter cultural exchange to the circulation of ideas and images to the commodification of identity and to literature art and performance in the market place The scope of the collection is appropriately global including essays on England's relations of exchange with Australia New Zealand North America the Far East and the Caribbean What we are shown ineluctably is that the traffic between Victorian Britain and the reaches of empire between Home and Abroad was two way a vehicle for cross cultural encounter mediation and trade and that cultural identity is relational circulatory and always in motion Hilary Fraser Birkbeck University of London
