Buddha Nature Sallie B. King, 1991-01-22 This volume presents the first book length study in English of the concept of Buddha nature as discussed in the Buddha Nature Treatise Fo Xing Lun attributed to Vasubandhu and translated into Chinese by Paramartha in the sixth century The author provides a detailed discussion of one of the most important concepts in East Asian Buddhism a topic little addressed in Western studies of Buddhism until now and places the Buddha nature concept in the context of Buddhist intellectual history King then carefully explains the traditional Buddhist language in the text and embeds Buddha nature in a family of concepts and values which as a group are foundational to the development of the major indigenous schools of Chinese Buddhism In addition she refutes the accusations that the idea of Buddha nature introduces a crypto Atman into Buddhist thought and that it represents a form of monism akin to the Brahmanism of the Upanisads In doing this King defends Buddha nature in terms of purely Buddhist philosophical principles Finally the author engages the Buddha nature concept in dialogue with Western philosophy by asking what it teaches us about what a human being or person is

The Buddha Nature Brian Edward Brown, Brian Brown, 1991-01-01 One of the fundamental tenets of Mahayana Buddhism animating and grounding the doctrine and discipline of its spiritual path is the inherent potentiality of all animate beings to attain the supreme and perfect enlightenment of Buddhahood This book examines the ontological presuppositions and the corresponding soteriological epistemological principles that sustain and define such a theory Within the field of Buddhist studies such a work provides a comprehensive context in which to interpret the influence and major insights of the various Buddhist schools Thus the dynamics of the Buddha Nature though non thematic and implicit is at the heart of Zen praxis while it is a significant articulation in Kegon Tendai and Shingon thought More specifically the book seeks to establish a coherent metaphysics of absolute suchness Tathata synthesizing the variant traditions of the Tathagata embryo Tathagatagarbha and the Storehouse Consciousness Alayavijnana The books contribution

to the broader field of the History of Religions rests in its presentation and analysis of the Buddhist Enlightenment as the salvific transformational moment in which Tathata awakens to itself comes to perfect self realization as the Absolute suchness of reality in and through phenomenal human consciousness The book is an interpretation of the Buddhist Path as the spontaneous self emergence of embryonic absolute knowledge as it comes to free itself from the concealments of adventitious defilements and possess itself in fully self explicitated self consciousness as the Highest Truth and unconditional nature of all existence it does so only in the form of omniscient wisdom

Mipam on Buddha-Nature Douglas Samuel Duckworth, 2016-10-24 Mipam ju mi pham rgya mtsho 1846 1912 is one of the most prolific thinkers in the history of Tibet and is a key figure in the Nyingma tradition of Buddhism His works continue to be widely studied in the Tibetan cultural region and beyond This book provides an in depth account of Mipam s view drawing on a wide range of his works and offering several new translations Douglas S Duckworth shows how a dialectic of presence and absence permeates Mipam s writings on the Middle Way and Buddha nature Arguably the most important doctrine in Buddhism Buddha nature is for Mipam equivalent to the true meaning of emptiness it is the ground of all and the common ground shared by sentient beings and Buddhas This ground is the foundation of the path and inseparable from the goal of Buddhahood Duckworth probes deeply into Mipam s writings on Buddha nature to illuminate its central place in a dynamic Buddhist philosophy

Samsara, Nirvana, and Buddha Nature Dalai Lama, Thubten Chodron, 2019-01-22 Samsara Nirvana and Buddha Nature takes up centrally important premises of Buddhism the unsatisfactoriness dukkha of cyclic existence samsara the determination to be free of cyclic existence and the mind as the basis for both the extreme dukkha of samsara and the bliss of nirvana This volume shows us how to purify our minds and cultivate awakened qualities Knowledge of buddha nature reveals and reconciles the paradox of how the mind can be the basis for both the extreme dukkha of samsara the unpurified mind and the bliss and fulfillment of nirvana the purified mind To illustrate this Samsara Nirvana and Buddha Nature first takes readers through Buddhist thought on the self the Four Noble Truths and their sixteen attributes Then the Dalai Lama explains afflictions their arising and antidotes followed by an examination of karma and cyclic existence and finally a deep and thorough elucidation of buddha nature This is the third volume in the Dalai Lama s definitive and comprehensive series on the stages of the Buddhist path The Library of Wisdom and Compassion Volume 1 Approaching the Buddhist Path contained introductory material that sets the context for Buddhist practice Volume 2 The Foundation of Buddhist Practice describes the important teachings that help us establish a flourishing Dharma practice Samsara Nirvana and Buddha Nature can be read as the logical next step in this series or enjoyed on its own

Buddha Nature Maitreya, Jamgon Kongtrul Lodro Taye, Khenpo Tsultrim Gyamtso, Asanga, 2018-08-14 The Buddha s definitive teachings on how we should understand the ground of enlightenment and the nature and qualities of buddhahood All sentient beings without exception have buddha nature the inherent purity and perfection of the mind untouched by changing mental states Thus there is neither any reason

for conceit nor self contempt This is obscured by veils that are removable and do not touch the inherent purity and perfection of the nature of the mind The Mahayana Uttaratantra Shastra one of the Five Treatises said to have been dictated to Asanga by the Bodhisattva Maitreya presents the Buddha's definitive teachings on how we should understand this ground of enlightenment and clarifies the nature and qualities of buddhahood This seminal text details with great clarity the view that forms the basis for Vajrayana and especially Mahamudra practice Buddha Nature and Animality David E. Jones, MR David Jones, 2007-08 Buddha Nature and Animality is about peaceful living In discussions about the relation between humans and their animal relatives a central theme is that Buddhism represents the most viable philosophical religious alternative to the malaise surrounding us when we confront ecological problems This recognition points to the notion of compassion The author seeks beyond the limits imposed by discourses of ethics and assumes a more radical approach to seek the roots of the perspectives that allow the conceptual space for the problematic dialogues in the first place Rather than viewing animals as distinct beings sharing our environs the author attempts to give the animals soul back to spirituality **Zen Buddhism:** **Japan** Heinrich Dumoulin, 2005-08-16 In this second volume of his classic history one of the world's foremost Zen scholars turns his attention to the development of Zen in Japan Buddha Nature Shamar Rinpoche, 2023-06-06 This book presents teachings that Shamar Rinpoche gave on buddha nature in Dhagpo Kagyu Ling France In a very inspiring way the author clearly points out what really counts the heart of awakening is nothing other than our true nature and therefore all of us in fact every sentient being can awaken to their buddha qualities Shamar Rinpoche bases his explanations on the text Revealing Buddha Nature by the 3rd Karmapa Rangjung Dorje 1284-1339 A translation by the book's translator of the underlying text is also included **The Buddhist Roots of Zhu Xi's Philosophical Thought** John Makeham, 2018 Zhu Xi 1130-1200 is the most influential Neo-Confucian philosopher and arguably the most important Chinese philosopher of the past millennium both in terms of his legacy and for the sophistication of his systematic philosophy The Buddhist Roots of Zhu Xi's Philosophical Thought combines in a single study two major areas of Chinese philosophy that are rarely tackled together Chinese Buddhist philosophy and Zhu Xi's Neo-Confucian philosophy Despite Zhu Xi's importance as a philosopher the role of Buddhist thought and philosophy in the construction of his systematic philosophy remains poorly understood What aspects of Buddhism did he criticize and why Was his engagement limited to criticism informed or otherwise or did Zhu also appropriate and repurpose Buddhist ideas to develop his own thought If Zhu's philosophical repertoire incorporated conceptual structures and problematics that are marked by a distinct Buddhist pedigree what implications does this have for our understanding of his philosophical project The five chapters that make up The Buddhist Roots of Zhu Xi's Philosophical Thought present a rich and complex portrait of the Buddhist roots of Zhu Xi's philosophical thought The scholarship is meticulous the analysis is rigorous and the philosophical insights are fresh Collectively the chapters illuminate a greatly expanded range of the intellectual resources Zhu incorporated into his philosophical thought demonstrating the vital role

that models derived from Buddhism played in his philosophical repertoire In doing so they provide new perspectives on what Zhu Xi was trying to achieve as a philosopher by repurposing ideas from Buddhism They also make significant and original contributions to our understanding of core concepts debates and conceptual structures that shaped the development of philosophy in East Asia over the past millennium
