Brotherhood Of The Crob And Star:

EVERY MAN IS A STAR In search of our Mother Star: the identification of the stellar signifiers in a birth chart Giacomo Albano, 2019-06-11 The constellations and the fixed stars are the true origin and the foundation of astrology Paracelsus claimed that each of us is the manifestation of a star but by this we mean a certain cosmic principle one of the ideas this idea is also typical of a certain star but we have not derived it from the star it is only that we are related to it and therefore we attract each other Thus we understand the importance of the techniques shown in the first part of this book for identifying stellar and planetary signifiers in a birth chart We will see how to identify the constellations the fixed stars and also the planets with which the native is in particular sympathy and how to use them both in the common astrological practice both in spiritual or magical astrology In the following the book deals with the relevance of the heliacal phases in world astrology The last chapter focuses on the analysis of sympathetic attraction mechanisms between terrestrial and celestial realities

Crop Circles Revealed Judith Moore, Barbara Lamb, 2001 Through both examination of the crop circles and channeled investigation Crop Circles Revealed explores a new understanding to help the people of the world and our mother planet survive the new millennium Scientific formulas of light and sound and the wisdom found in the mythologies of the ages are brought together in this up to the minute 2001 edition

Of Stars and Gods Frank Fojtik, 2022-04-27 This book aimed in particular at beginners tries to familiarize the reader with the especially northern starry sky as quickly as possible The latter shall not be achieved in a sterile way by using coordinates or scientific techniques but rather by means of the Greek myths that underlie most of the constellations However in contrast to other publications in this field only those stories are presented that can be integrated into the predefined 12 myths This and the brief description of the underlying myths make it easy to acquire the new knowledge Following Highway to God Of Stars and Gods is Frank Fojtik's second popular scientific book which shows like the first one points of contact between visible reality and metaphysical thinking On the one hand it represents a practicable astronomical orientation tool On the other hand it may be also a kind of key for the reader to touch something greater that goes beyond the purely scientific
