The American Presidents From Polk to Hayes Robert A. Nowlan, Ph.D., 2016-01-31 American Presidents Polk to Hayes What They Did What They Said What Was Said About Them is the second book in a planned five volume series covering all the Presidents These 43 men so far have succeeded in some regards and failed in others as they strove to do the best they could in what is surely one of the most difficult jobs in the world Only they can truly appreciate what it takes to be the president Others can only speculate People feel strongly about U S Presidents Some they admire others they hate It is fair game to criticize a president's actions and policies However questioning their commitment to American ideals seems like hitting below the belt There are no willing villains Most people can find justification for their actions beliefs and prejudices Each president strove to do the best he could for the nation and its people This goal of the book is not to praise presidents nor is it to condemn them The subtitle of each of the five books in the series What They Did What They Said What Was Said About Them perfectly describes the approach adopted to tell their stories in a unique way meant to entertain as well as inform Readers are asked to make their own judgments of the presidencies based on more information that the semi myths they may recall History courses or what is preached in the many longstanding and despicable negative campaigning mudslinging and character assassination reports they hear from partisans One can find much to admire about

each of the presidents and unfortunately much to deplore Soldiers are told that in giving salutes to officers is not honoring the individuals but rather their rank If there are presidents readers just feel they cannot salute hopefully they can salute the presidency *Promoting the War Effort* Mordecai Lee,2012-09-17 A former reporter Horton headed the public relations department for the U S Maritime Commission from 1938 to 1940 Then until Pearl Harbor in December 1941 he directed the Division of Information DOI in the Executive Office of the President where he played key roles in promoting the New Deal President Franklin D Roosevelt s unprecedented third term reelection campaign and the prewar arms production effort After Pearl Harbor Horton s DOI encouraged support for the war primarily focusing on raising civilian and workforce morale But the DOI under Horton assumed a different wartime tone than its World War I predecessor the Committee on Public Information Rather than whipping up prowar hysteria Horton focused on developing campaigns for more practical purposes such as conservation and production In mid 1942 Roosevelt merged the Division and several other agencies into the Office of War Information

America Goes to War Bruce Catton,2022-01-21 The Pulitzer Prize winning historian ranges informally but authoritatively across Civil War related topics in a thought provoking essay collection The New York Times Based on a lecture series delivered at Wesleyan University these essays come from Bruce Catton a New York Times bestselling and National Book Award winning author acclaimed as one of America s foremost Civil War authorities Kirkus Reviews In them he delves more deeply into the subject of the war and its meaning for America addressing such issues as the psychology of the citizen soldier the presidential career of Ulysses S Grant and what happens to civil liberties in wartime He explores how the war compelled the nation to confront questions about race and democracy and places the conflict in a wider context identifying it as the world s first truly modern war Nothing in our time makes the Civil War as alive as the writings of Bruce Catton The Baltimore Sun *Civil War Times Illustrated* ,1978
