The First 20 Hours Josh Kaufman, 2014-05-27 What if it's possible to learn the basics of any new skill in 20 hours or less? Research suggests it takes 10,000 hours to master a new skill, and the earliest hours are always the most frustrating. That's why it's so difficult to learn a new language, play an instrument, hit a golf ball, or shoot great photos. Josh Kaufman offers a better way. His systematic approach to rapid skill acquisition shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice, you can pick up the basics in record time and have more fun along the way.

Eastern Practices and Nordic Bodies Daniel Enstedt, Katarina Plank, 2023-10-13 This volume explores the reception, development, and construction of Eastern practices in the Nordic countries. The focus is on spirituality, medicine, and healing from a lived religion perspective. Besides a geographical focus on the Nordic countries and their characteristics, this collection examines the embodied practices aligned with different expressions of religiosity: alternative medicine, spirituality, and healing practices. By addressing questions about how so-called Eastern practices are embodied, spread, and materialized, the contributors shed light on a cultural change in Nordic societies regarding religious, spiritual, and alternative health practices that are sometimes at odds with the dominant medical discourse about life-threatening diseases and other types of conditions.
