SIMPLE WAYS TO RELIEVE Stress & Anxiety

Exercising regularly is good for both your physical and mental health. Just 30 minutes a day is all it takes to feel better. Exercise releases endorphins, which are natural mood lifters. It also helps you sleep better and gives you more energy.

Using relaxation skills or breathing is a helpful tool to reduce feelings of anxiety and stress. Try the 4-7-8 technique: Inhale for 4 seconds, hold for 7 seconds, and exhale for 8 seconds.

Lean on friends, family, or support groups. They will help you with your feelings and concerns while also giving you perspective.

Reflect on what makes you happy. Making a list of things you love to do, people you love, and places you love to visit can help you focus on the positive.

Students are realizing the need to become more autonomous, parents are having to become more present and teachers are assuming new roles in virtual education. Although this new era of education is marked by innovation at all levels, most of these changes have not been thoroughly planned or structured, thus creating a difficult experience for all the educational stakeholders. *Impact of Digital Transformation in Teacher Training Models* conducts a critical discussion on teacher preparedness in the digital transformation of teaching practices. It promotes practitioner reflections on the role of institutional policies, teacher digital literacy, the digital divide and how the ongoing digital transformation of society will induce the need for a paradigm shift in teacher training models. Covering topics such as emergency remote education, emerging pedagogies and massive open online courses, this book is an essential resource for policymakers, government officials, education administration, pre-service teachers, educators, researchers and academicians.
