ABSTRACT

The biographical criticism of Ernest Hemingway, as an indispensable part of Hemingway studies, has been playing a crucial role in injecting vigor and vitality with its vast number of biographical works, rich content and various forms. This paper focuses on the new Hemingway biographies published since the 21st century. By summarizing and selecting representative works, this paper discovers that biographical studies of Hemingway in the 21st century transform from comprehensiveness to specialization, from general biographies to thematic biographies. Besides, there are five new features: (1) extension of new research areas; (2) exploration of innovative and unique research perspectives; (3) application of diverse research approaches; (4) discoveries of new research materials; (5) the diversity of Hemingway's biographers.

Keywords: Ernest Hemingway, biographical criticism, 21st century, new trends, new features

1. INTRODUCTION

Ernest Hemingway, as an American writer who enjoys worldwide fame, has exerted far-reaching influence on the American literature and even the world literature. Hemingway's literary works are widely spread throughout the world while his unique writing style has affected numerous writers and Hemingway aficionados, thus making Hemingway studies in academia vibrant and prosperous. Since the 1960s, biographical studies of Ernest Hemingway has been one of the paramount components of Hemingway studies. In 1969, *Ernest Hemingway: A Life Story*, written by Carlos Baker, was published, which, until now, is still one of the most authoritative and representative biographies. Subsequently, Hemingway scholars and biographers such as Scott Donaldson, Jeffrey Meyers, Kenneth S. Lynn and Michael Reynolds etc. embarked on biographical studies of Ernest Hemingway and wrote many influential works, helping us have a more comprehensive and better understanding of Hemingway's legendary life and literary creation.

The 21st century has witnessed new developments and achievements in the field of biographical studies of Ernest Hemingway. Therefore, focusing on new monographs of Hemingway biographies published since the 21st century, it is of great importance to discover the new trends and summarize new features of biographical studies of Hemingway.

2. NEW TRENDS: FROM COMPREHENSIVENESS TO SPECIALIZATION

In the 20th century, most of the biographies of Hemingway concentrated on the comprehensiveness of his life experience, while in the 21st century, biographies have turned to become more specialized, focusing on a certain period of Hemingway's life, an important event, a visit to a certain place, friendship or romantic experience etc. Thematic biographies account for approximately half of the total number of Hemingway biographies, making the studies more in-depth and more specific.

In terms of a certain period of Hemingway's life, Steve Paul's *Hemingway at Eighteen: The Pivotal Year That Launched an American Legend* (2017) is the only biography that gives a detailed description of Hemingway's experience and writing in the crucial year of 1917 when he was 18 years old. On the one hand, Paul elaborates on the turning point of Hemingway's life, transforming from a high school graduate to be a cub reporter in the *Kansas City Star* before traveling to the Italy front to be a volunteer of the Red Cross during the World War I. On the other hand, Paul's work provides some valuable information, offering us a useful clue for exploring Hemingway's early writing style and literary themes. In the appendix of the biography, there are three articles newly discovered that have been identified as Hemingway's during his six months as a reporter for the *Kansas City Star*.
