

The Biotechnology Directory 1999

The background of the cover is a deep purple with a textured, painterly appearance. A prominent feature is a stylized DNA double helix that winds diagonally across the right side of the cover. The helix is composed of two intertwined strands, one colored in a vibrant green and the other in a rich red. The base pairs connecting the strands are depicted as horizontal yellow bars. To the left of the main title, there are several faint, parallel yellow lines that suggest a molecular or technological theme.
