Ancient Greek Athletics Charles H. Stocking, Susan A. Stephens, 2021-08-25 The Sourcebook of Ancient Greek Athletics offers the most comprehensive collection to date of primary sources in translation for the study of ancient Greek athletics Because Greek athletics was such an essential feature of both Greek and Roman culture there is an especially strong need for proper treatment and understanding of the texts and other media used to reconstruct practices and ideologies of ancient athletics The sources in this collection are arranged chronologically from the Archaic Period to the Roman Imperial Era with an extensive appendix discussing key themes and topics The organization and in depth presentation of textual sources is designed to help students scholars and general readers fully appreciate the broader social and cultural significance of ancient Greek athletics as it developed in different historical time periods throughout antiquity

Two Studies in the History of Ancient Greek Athletics Thomas Heine Nielsen, 2018 Presents two studies in the history of ancient Greek athletics The first study is a survey of the number of festivals with athletic and equestrian competitions which existed throughout the Greek world in the late Archaic and Classical periods It demonstrates that athletic festivals were celebrated in far greater numbers than previously assumed The second study discusses the symbolic value and prestige of athletic victories achieved at the sanctuary of Zeus at Nemea in the Peloponnese by focusing on the value attached by victorious athletes and their home communities to such victories and by situating the contests at Nemea in the competitive landscape of late Archaic and Classical Greece delineated in the first study It concludes that the prestige of a Nemean victory far outshone that of a victory in any of the numerous athletic festivals which did not form a part of the great Big Four the Olympic Pythian Isthmian and Nemean festivals
