Lovecraft* H.P. Lovecraft, 2005-08 H P Lovecraft is best known for his fiction but he spent a great portion of his creative energy on his poetry The *Ancient Track* collects the complete poetry of one of the twentieth centuries most iconic writers The great majority of these poems were written between 1914 and 1920 the period of Lovecraft's heaviest concentration on poetry Lovecraft's poetry may be regarded as the lesser of his literary output but it merits collection precisely because it is an important ancillary to his other more well known forms of creative endeavor Prior to the publication of *The Ancient Track* Lovecraft's poetry had been scattered across several different volumes whose textual accuracy has not always been exemplary while several poems had been uncollected *The Ancient Track* By H P Lovecraft There was no hand to hold me back That night I found the ancient track Over the hill and strained to see The fields that teased my memory This tree that wall I knew them well And all the roofs and orchards fell Familiarly upon my mind As from a past not far behind I knew what shadows would be cast When the late moon came up at last From back of Zaman's Hill and how The vale would shine three hours from now And when the path grew steep and high And seemed to end against the sky I had no fear of what might rest Beyond that silhouetted crest

Straight on I walked while all the night Grew pale with phosphorescent light And wall and farmhouse gable glowed Unearthly by the climbing road There was the milestone that I knew Two miles to Dunwich now the view Of distant spire and roofs would dawn With ten more upward paces gone There was no hand to hold me back That night I found the ancient track And reached the crest to see outspread A valley of the lost and dead And over Zaman s Hill the horn Of a malignant moon was born To light the weeds and vines that grew On ruined walls I never knew The fox fire glowed in field and bog And unknown waters spewed a fog Whose curling talons mocked the thought That I had ever known this spot Too well I saw from the mad scene That my loved past had never been Nor was I now upon the trail Descending to that long dead vale Around was fog ahead the spray Of star streams in the Milky Way There was no hand to hold me back That night I found the ancient track

The New Annotated H. P. Lovecraft H.P. Lovecraft, 2014-10-06 Finalist for the HWA's Bram Stoker Award for Best Anthology Named one of the Best Books of the Year by Slate and the San Francisco Chronicle From across strange aeons comes the long awaited annotated edition of the twentieth century's greatest practitioner of the classic horror tale Stephen King With an increasing distance from the twentieth century the New England poet author essayist and stunningly profuse epistolary Howard Phillips Lovecraft is beginning to emerge as one of that tumultuous period's most critically fascinating and yet enigmatic figures writes Alan Moore in his introduction to *The New Annotated H P Lovecraft* Despite this nearly unprecedented posthumous trajectory at the time of his death at the age of forty six Lovecraft's work had appeared only in dime store magazines ignored by the public and maligned by critics Now well over a century after his birth Lovecraft is increasingly being recognized as the foundation for American horror and science fiction the source of incalculable influence on succeeding generations of writers of horror fiction Joyce Carol Oates In this volume Leslie S Klinger reanimates Lovecraft with clarity and historical insight charting the rise of the erstwhile pulp writer whose rediscovery and reclamation into the literary canon can be compared only to that of Poe or Melville Weaving together a broad base of existing scholarship with his own original insights Klinger appends Lovecraft's uncanny oeuvre and Kafkaesque life story in a way that provides context and unlocks many of the secrets of his often cryptic body of work Over the course of his career Lovecraft the Copernicus of the horror story Fritz Leiber made a marked departure from the gothic style of his predecessors that focused mostly on ghosts ghouls and witches instead crafting a vast mythos in which humanity is but a blissfully unaware speck in a cosmos shared by vast and ancient alien beings One of the progenitors of weird fiction Lovecraft wrote stories suggesting that we

share not just our reality but our planet and even a common ancestry with unspeakable godlike creatures just one accidental revelation away from emerging from their epoch of hibernation and extinguishing both our individual sanity and entire civilization Following his best selling *The New Annotated Sherlock Holmes* Leslie S Klinger collects here twenty two of Lovecraft's best most chilling Arkham tales including *The Call of Cthulhu* *At the Mountains of Madness* *The Whisperer in Darkness* *The Shadow Over Innsmouth* *The Colour Out of Space* and others With nearly 300 illustrations including full color reproductions of the original artwork and covers from *Weird Tales* and *Astounding Stories* and more than 1 000 annotations this volume illuminates every dimension of H P Lovecraft and stirs the Great Old Ones in their millennia of sleep
