Handbook of Childhood and Education in the Classical World Judith Evans Grubbs, Tim Parkin, 2013-11-12 The past thirty years have seen an explosion of interest in Greek and Roman social history particularly studies of women and the family Until recently these studies did not focus especially on children and childhood but considered children in the larger context of family continuity and inter family relationships or legal issues like legitimacy adoption and inheritance Recent publications have examined a variety of aspects related to childhood in ancient Greece and Rome but until now nothing has

attempted to comprehensively survey the state of ancient childhood studies This handbook does just that showcasing the work of both established and rising scholars and demonstrating the variety of approaches to the study of childhood in the classical world In thirty chapters with a detailed introduction and envoi The Oxford Handbook of Childhood and Education in the Classical World presents current research in a wide range of topics on ancient childhood including sub disciplines of Classics that rarely appear in collections on the family or childhood such as archaeology and ancient medicine Contributors include some of the foremost experts in the field as well as younger up and coming scholars Unlike most edited volumes on childhood or the family in antiquity this collection also gives attention to the late antique period and whether or how conceptions of childhood and the life of children changed with Christianity The chronological spread runs from archaic Greece to the later Roman Empire fifth century C E Geographical areas covered include not only classical Greece and Roman Italy but also the eastern Mediterranean The Oxford Handbook of Childhood and Education in the Classical World engages with perennially valuable questions about family and education in the ancient world while providing a much needed touchstone for research in the field

Beyond Redress: Prioritising the Child's Best Interests to Achieve Equality before the Law in South Africa Salatiso, 2024-07-06 In democratic South Africa Beyond Redress emerges as a beacon of hope illuminating a path towards true equality and justice This groundbreaking work delves deep into the heart of the nation's ongoing struggle for reconciliation challenging the conventional wisdom surrounding redress policies and their impact on children The book's central thesis is both provocative and compelling that well intentioned policies designed to redress the injustices of apartheid have inadvertently perpetuated inequality and exacerbated social ills By meticulously examining the unintended consequences of affirmative action Black Economic Empowerment BEE and other race based initiatives the author reveals a troubling reality that these policies have often benefited a privileged few while leaving the majority of South Africans particularly the born free generation mired in poverty and disadvantage Beyond Redress confronts the uncomfortable truth that the pursuit of redress has sometimes come at the expense of the best interests of the child The book highlights how discriminatory practices even those sanctioned by the state in the name of fair discrimination can have devastating consequences for children's development education and future prospects Through poignant anecdotes and compelling data the book paints a vivid picture of the challenges faced by the born free generation and their children It reveals how the burden of redress policies often falls disproportionately on the shoulders of these young people limiting their opportunities and perpetuating a cycle of disadvantage But Beyond Redress is not simply a critique of the status quo it is a call to action a blueprint for a more just and equitable future The author proposes a radical reimagining of South Africa's approach to redress one that prioritizes the best interests of the child above all else This child centric approach recognizes that every policy decision ultimately impacts the lives of children At the heart of this vision is a shift away from race based policies towards a merit based system that rewards individual potential and achievement By focusing on individual

capabilities rather than immutable characteristics South Africa can create a truly inclusive society where everyone has the opportunity to succeed based on their own merit *Reading, Learning, Teaching N. Scott Momaday* Jim Charles, 2007

Adults and Children in the Roman Empire (Routledge Revivals) Thomas Wiedemann, 2014-03-18 There is little evidence to enable us to reconstruct what it felt like to be a child in the Roman world We do however have ample evidence about the feelings and expectations that adults had for children over the centuries between the end of the Roman republic and late antiquity Thomas Wiedemann draws on this evidence to describe a range of attitudes towards children in the classical period identifying three areas where greater individuality was assigned to children through political office holding through education and for Christians through membership of the Church in baptism These developments in both pagan and Christian practices reflect wider social changes in the Roman world during the first four centuries of the Christian era Of obvious value to classicists *Adults and Children in the Roman Empire* first published in 1989 is also indispensable for

anthropologists and well as those interested in ecclesiastical and social history **History of Early Childhood Education** V. Celia Lascarides, Blythe F. Hinitz, 2013-05-13 *History of Early Childhood Education* presents a thorough and elegant description of the history of early childhood education in the United States This book of original research is a concise compendium of historical literature combining history with the prominent and influential theoretical background of the time Covering historical threads that reach from ancient Greece and Rome to the early childhood education programs of today this in depth and well written volume captures the deep tradition and the creative knowledge base of early care and education *History of Early Childhood Education* is an essential resource for every early childhood education scholar student and educator *The Child's Changing Consciousness* Rudolf Steiner, 1996 Translated from the German by Roland Everett and edited by Rhona Everett

Conversations with N. Scott Momaday N. Scott Momaday, 1997 When his first novel *House Made of Dawn* was awarded the Pulitzer Prize for fiction in 1969 N Scott Momaday was virtually unknown Today he is the most acclaimed Native American writer working at the peak of his creative power and gaining stature also as an important painter His first retrospective was held in 1993 at the Wheelwright Museum in Santa Fe The son of a Kiowa artist and a Cherokee Anglo mother Momaday synthesizes multiple cultural influences in his writing and painting While much of his attention focuses on the difficult task of reconciling ancient traditions with modern reality his work itself is an example of how the best of the Indian and non Indian worlds can be arranged into a startling mosaic of seemingly contradictory cultural and artistic elements Momaday sees his writings as one long continuous story a working out of his evolving identity as a modern Kiowa It is a story grounded in the oral tradition of his ancestors and told in the modes of the traditional storyteller and the modern novelist poet who is steeped in the best writings of American and European literature The interviews in this volume span the period from 1970 to 1993 Momaday responds candidly to questions relating to his multicultural background his views on the place of the Indian in American literature and society his concern for conservation and an American land

ethic his theory of language and the imagination the influences on his artistic and academic development and his comments on specific works he has written The reader who joins these conversations will meet in N Scott Momaday a careful listener and an engaging often humorous speaker whose commentaries provide a deeper vision for those interested in his life and work
