Raffaella Di Napoli

Ancient Wisdom Revived A History Of The Theosophical Movement:

Ancient Wisdom Revived Bruce F. Campbell, 1980 Recounts how Madame Helena Blavatsky revived the ancient Western tradition of Gnosticism to begin the Theosophical movement in the U S **Invented Knowledge** Ronald H.

Fritze, 2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in *Invented Knowledge* reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole *The Late Victorian Folksong Revival* E. David Gregory, 2010-04-13

This book traces the early history of the first English folksong revival during the late Victorian era focusing on the work of three prominent song collectors Sabine Baring Gould Frank Kidson and Lucy Broadwood It follows E David Gregory s earlier book *Victorian Songhunt* *Spiritual Empires in Europe and India* Perry Myers, 2021-10-30 This book provides a comparative analysis of cosmopolitan esoteric religious movements such as Theosophy Groupe Independent des tudes sot riques Anthroposophy and Monism in England France Germany and India during the late nineteenth century to the interwar years Despite their diversity these factions manifested a set of common features anti materialism embrace of Darwinian evolution and a belief in universal spirituality that coalesced in a transnational field of analogous cosmopolitan spiritual affinities Yet in each of their geopolitical locations these groups developed vastly different interpretations and applications of their common spiritual tenets This book explores how such religious innovation intersected with the social labor and economic renewal cultural education and religious innovation and political Empire and anti colonial dynamics in these vastly different national domains Ultimately it illustrates how an innovative religious discourse converged with the secular world and became applied to envision a new social order to spiritually re engineer the world *Coxey's Crusade for Jobs* Jerry Prout, 2016-05-15 In the depths of a depression in 1894 a highly successful Gilded Age businessman named Jacob Coxey led a group of jobless men on a march from his hometown of Massillon Ohio to the steps of the nation s Capitol Though a financial panic and the resulting widespread business failures caused millions of Americans to be without work at the time the word unemployment was rarely used and generally misunderstood In an era that worshipped the self reliant individual who triumphed in a laissez faire market the out of work tramp was disparaged as weak or flawed and undeserving of assistance Private charities were unable to meet the needs of the jobless and only a few communities experimented with public works programs Despite these limitations Coxey conceived a plan to put millions back to work building a nationwide system of roads and drew attention to his idea with the march to Washington In *Coxey s Crusade for Jobs* Jerry Prout recounts Coxey s

story and adds depth and context by focusing on the reporters who were embedded in the march Their fascinating depictions of life on the road occupied the headlines and front pages of America s newspapers for more than a month turning the spectacle into a serialized drama These accounts humanized the idea of unemployment and helped Americans realize that in a new industrial economy unemployment was not going away and the unemployed deserved attention This unique study will appeal to scholars and students interested in the Gilded Age and US and labor history **Divine Feminine Joy**

Dixon,2003-05-01 Honorable Mention for the Wallace K Ferguson Prize from the Canadian Historical Association Chosen by Choice Magazine as an Outstanding Academic Title of 2003 In 1891 newspapers all over the world carried reports of the death of H P Blavatsky the mysterious Russian woman who was the spiritual founder of the Theosophical Society With the help of the equally mysterious Mahatmas who were her teachers Blavatsky claimed to have brought the ancient wisdom of the East to the rescue of a materialistic West In England Blavatsky s earliest followers were mostly men but a generation later the Theosophical Society was dominated by women and theosophy had become a crucial part of feminist political culture Divine Feminine is the first full length study of the relationship between alternative or esoteric spirituality and the feminist movement in England Historian Joy Dixon examines the Theosophical Society s claims that women and the East were the repositories of spiritual forces which English men had forfeited in their scramble for material and imperial power Theosophists produced arguments that became key tools in many feminist campaigns Many women of the Theosophical Society became suffragists to promote the spiritualizing of politics attempting to create a political role for women as a way to sacralize the public sphere Dixon also shows that theosophy provides much of the framework and the vocabulary for today s New Age movement Many of the assumptions about class race and gender which marked the emergence of esoteric religions at the end of the nineteenth century continue to shape alternative spiritualities today *Between Occultism and Nazism*

Peter Staudenmaier,2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades Peter Staudenmaier s *Between Occultism and Nazism* provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies The book also includes an analysis of anthroposophist involvement in the racial policies of Fascist Italy Based on extensive archival research this study offers rich material on controversial questions about the nature of esoteric spirituality and alternative cultural ideals and their political resonance **The Fourth Dimension and**

Non-Euclidean Geometry in Modern Art, revised edition Linda Dalrymple Henderson,2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth

dimension of space were central to the development of modern art. The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence. That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists, Italian Futurists, and Marcel Duchamp to Max Weber, Kazimir Malevich, and the artists of De Stijl and Surrealism. In an extensive new Reintroduction, Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000. Although largely eclipsed by relativity theory beginning in the 1920s, the spatial fourth dimension experienced a resurgence during the later 1950s and 1960s. In a remarkable turn of events, it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics. Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller, Robert Smithson, and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak.

MOVE Richard Kent Evans, 2020-06-01. Richard Kent Evans tells the story of MOVE, a small little known mostly African American group that emerged in Philadelphia in the early 1970s. In 1985, the Philadelphia Police Department, working in concert with federal and state law enforcement, attacked a home that MOVE members shared in West Philadelphia. Eleven people were killed in the attack, including five children. Many MOVE members thought of themselves as belonging to a religion, but to others, most importantly the courts, MOVE was anything but. Evans uses MOVE's story as a lens through which to examine how we decide what constitutes a genuine religious tradition and the enormous consequences of that decision.

The ^AWestern Esoteric Traditions Nicholas Goodrick-Clarke, 2008-10-14. The Western Esoteric Traditions offers a concise history of a distinct form of philosophical spirituality extending from Hermeticism, Neo Platonism, and Gnosticism in the early Christian era up until the present. New paradigms in medicine and science attest to the continuity of esoteric ideas into the twenty first century.
