Conceptualizing/Re-conceptualizing Africa Maghan Keita, 2021-10-11 Africa is a legitimizing factor in the world some might argue because of the weakness of its position in the world others might say because of the realization on the part of some African leaders that there are strengths inherent to their states positions that can be tapped Africa's place in the world is being re thought and re shaped And that is exactly what this book is about the authors invite and incite the reader to a much closer and nuanced reading of Africa and its history and the way in which that history over time and space allows for a re conceptualization of Africa's role and place in the world The authors evoke W E B Du Bois on the invention of identity in the modern world In that light these works remind us as Du Bois would that the current invention of Africa is indeed a modern one an identity configured in numerous ways with and without our interventions Contributions by Lamont de Haven King State and Ethnicity in Nigeria Jesse Benjamin Nubians and Nabateans Jeremy Prestholdt Portuguese on the Swahili Coast Thomas Ricks Slaves in Shi'i Iran AD 1500 1900 Launay Robert Late Seventeenth Century Narratives of Travel to Asia and Richard J Payne and Cassandra Veney Taiwan and Africa **The Hero with an African Face** Clyde W.

Ford, 2000-01-04 In this remarkable book Clyde Ford restores to us the lost treasure of African mythology bringing to life the ancient tales and showing why they matter so much to us today African myths convey the perennial wisdom of humanity the creation of the world the hero's journey our relationship with nature death and resurrection From the Ashanti comes the moving account of the grief stricken Kwasi Benefo's journey to the underworld to seek his beloved wives From Uganda we learn of the legendary Kintu who won the love of a goddess and created a nation from a handful of isolated clans The Congo's epic hero Mwindo is the sacred warrior who shows us the path each person must travel to discover his true destiny These and other important African myths show us the history of African Americans in a new light as a hero's journey a courageous passage to a hard won victory The Hero with an African Face enriches us all by restoring this vital tradition to the world

Ancient Africa Christopher Ehret, 2024-11-05 A panoramic narrative that places ancient Africa on the stage of world history This book brings together archaeological and linguistic evidence to provide a sweeping global history of ancient Africa tracing how the continent played an important role in the technological agricultural and economic transitions of world civilization Christopher Ehret takes readers from the close of the last Ice Age some ten thousand years ago when a changing

climate allowed for the transition from hunting and gathering to the cultivation of crops and raising of livestock to the rise of kingdoms and empires in the first centuries of the common era Ehret takes up the problem of how we discuss Africa in the context of global history combining results of multiple disciplines He sheds light on the rich history of technological innovation by African societies from advances in ceramics to cotton weaving and iron smelting highlighting the important contributions of women as inventors and innovators He shows how Africa helped to usher in an age of agricultural exchange exporting essential crops as well as new agricultural methods into other regions and how African traders and merchants led a commercial revolution spanning diverse regions and cultures Ehret lays out the deeply African foundations of ancient Egyptian culture beliefs and institutions and discusses early Christianity in Africa A monumental achievement by one of today's eminent scholars Ancient Africa offers vital new perspectives on our shared past explaining why we need to reshape our historical frameworks for understanding the ancient world as a whole Antiquity Imagined Robin Derricourt, 2015-06-26

Outsiders have long attributed to the Middle East and especially to ancient Egypt meanings that go way beyond the rational and observable The region has been seen as the source of civilization religion the sciences and the arts but also of mystical knowledge and outlandish theories whether about the Lost City of Atlantis or visits by alien beings In his exploration of how its past has been creatively interpreted by later ages Robin Derricourt surveys the various claims that have been made for Egypt particularly the idea that it harbours an esoteric wisdom vital to the world's survival He looks at alternative interpretations of the pyramids from maps of space and time to landing markers for UFOs at images of the Egyptian mummy and at the popular mythology of the pharaoh's curse and at imperialist ideas of racial superiority that credited Egypt with spreading innovations and inventions as far as the Americas Australia and China Including arcane ideas about the Lost Ten Tribes of biblical Israel the author enlarges his focus to include the Levant His book is the first to show in depth how ancient Egypt and the surrounding lands have so continuously and seductively tantalised the Western imagination **The Problem with Africanity in the Seventh-Day Adventist Church** Alven Makapela, 1996 Tracing the historical presence of Africans African Americans and Afro Caribbeans in the Seventh Day Adventist church this work examines issues which have contributed to the problems of race relations in the church and argues that it should either correct or reinterpret some of its doctrines *African Congress* Congress of African Peoples, Amiri Baraka, 1972 *Person and Community* Kwasi Wiredu, Kwame Gyekye, 1992 World Authors, 1900-1950, 1996 Provides almost 2700 articles on twentieth century authors from all over the world who wrote in English or whose works are available in English translation
