Stiebing, 2010-06-03 Controversial archaeological and astronomical discoveries have been the subject of countless news stories best selling books movies and television programs Promoted but seldom critically evaluated are the theories that markings in the desert of Peru are the remains of an ancient airfield used by space visitors that the Great Pyramid of Giza in Egypt exhibits advanced technology unknown to the ancient Egyptians and that there were near collisions between planets of our solar system in historical times This book critically evaluates many of these popular hypotheses about man's early history It presents the most important evidence and arguments for and against theories of a universal flood the lost continent of Atlantis mysterious pyramid powers pre Columbian voyages to America by ancient Egyptians and Phoenicians and Velikovsky's cosmic catastrophism Professor Stiebing stresses the need for careful and objective analysis of the evidence used to support radical reconstructions of the past The book discusses radio carbon dating archaeological stratigraphy textual interpretation and epigraphy as well as emphasis on the proper use of data provided by geology astronomy and other sciences It is written in non technical language and will appeal to a wide audience **Astronaut Gods of the Maya** Erich von Däniken, 2017-05-25 A visual tour of the evidence for ancient astronauts in Mesoamerica Includes more than 200 full color photographs from the author's personal archives Details the astronaut technology helmets tanks hoses keyboards rockets clearly illustrated in stone carvings and statues from Mesoamerican sites such as Palenque Chich n Itz and Teotihuac n in Mexico and Tikal in Guatemala Explores the similarities of Maya pyramids with those at Kanchipuram in South India Sharing more than 200 never before published full color photographs from his personal archives bestselling author Erich von Däniken provides clear evidence of ancient alien contact and technology among the archaeological sites of the Maya as well as other ancient cultures such as the Aztecs and the Hindus He reveals how the gods immortalized in Maya sculptures carved reliefs and myth were not supernatural beings but technologically advanced visitors astronauts who gifted

the Maya with their sophisticated understanding of calendar time and cosmology He explains how with no explanation for their technologies and origins the Maya interpreted the visitors as divine and thus the gods were born Examining stone carvings and statues from many Mesoamerican sites such as Palenque Chich n Itz and Teotihuac n in Mexico and Tikal in Guatemala von D niken reveals the astronaut technology helmets tanks hoses keyboards rockets clearly illustrated in these ancient depictions of the gods He explores the similarities of Plato s writings with the Chilam Balam books of Mexico and compares ancient alien features in myths around the world paralleling how mercury is mentioned as a fuel ingredient of flying machines in ancient India with the discovery of mercury at Cop n Palenque and Teotihuac n as well as in the grave of a Chinese emperor and two Egyptian graves on Nabta Playa Illustrating the similarities of Mayan step pyramids with those of Kanchipuram in South India the author explains how Mayan pyramids are crowned with a small temple residence or landing field of the gods while the pyramids of South India are topped with a Vimana a godly flying vehicle Offering visual proof of the ancient world s contact with advanced alien visitors they recorded as gods and teachers von D niken also raises the question of the heavenly origins of royal families and dynasties in Mesoamerica Egypt and beyond revealing how the Mayan kings of Palenque and the pharaohs of Egypt may be descendants of the gods The Case of the Ancient Astronauts I. Theosophy on Ancient Astronauts Jason Colavito,2012-01-23 It is often unacknowledged how deep a debt modern ancient astronaut theorists owe to the nineteenth century Theosophical movement a Victorian era amalgam of Spiritualism Eastern religions and good old fashioned hokum The Theosophists proposed that beings from Venus and other planets visited earth in the deep past and were responsible for ancient ruins and the foundations of religion This book presents early texts from noted Theosophists and those who encountered Theosophy covering the beings from other worlds that came to the ancient earth to civilize our planet These texts provide an interesting window into the origins of the modern ancient astronaut theory and demonstrate just how much the talking heads of cable TV

and the modern authors of alternative history owe to the pioneering work of the nineteenth and early twentieth century occultists This volume features W Scott Elliot s complete *The Lost Lemuria* and H P Blavatsky s *Stanzas of Dzyan* among other selections
