Bint Arab Arab And Arab American Women In The United States

**Michael W. Suleiman, Suad
Joseph, Louise Cainkar**

Bint Arab Arab And Arab American Women In The United States:

Bint Arab Evelyn Shakir, 1997-08-26 Shakir tells the long neglected story of the bint arab the Arab woman in the United States Weaving together a survey from the late 19th century to the present she focuses on each generation s negotiation between traditional Arab values and the social and sexual liberties permitted women in the West Interspersing oral histories Shakir challenges stereotypes and creates a unique and fascinating portrait of an often misunderstood group **Arabs in America** Michael Suleiman, 2010-06-29 Setting the record straight about Arab American culture Between Arab and White Sarah Gualtieri, 2009-05-06 This multifaceted study of Syrian immigration to the United States places Syrians and Arabs more generally at the center of discussions about race and racial formation from which they have long been marginalized Between Arab and White focuses on the first wave of Arab immigration and settlement in the United States in the years before World War II but also continues the story up to the present It presents an original analysis of the ways in which people mainly from current day Lebanon and Syria the largest group of Arabic speaking immigrants before World War II came to view themselves in racial terms and position themselves within racial hierarchies as part of a broader process of ethnic identity formation Arab American Women Michael W. Suleiman, Suad Joseph, Louise Cainkar, 2021-12-01 Arab American women have played an essential role in shaping their homes their communities and their country for centuries Their contributions often marginalized academically and culturally are receiving long overdue attention with the emerging interdisciplinary field of Arab American women s studies The collected essays in this volume capture the history and significance of Arab American women addressing issues of migration transformation and reformation as these women invented occupations politics philosophies scholarship literature arts and ultimately themselves Arab American women brought culture and absorbed culture they brought relationships and created relationships they brought skills and talents and developed skills and talents They resisted inequities refused compliance and challenged representation They engaged in politics civil society the arts education the market and business And they told their own stories These histories these genealogies these narrations that are so much a part of the American experiment are chronicled in this volume providing an indispensable resource for scholars and activists *Daily Life of Arab Americans in the 21st Century* Anan Ameri, Holly Arida, 2012-04-06 This much needed study documents positive Arab American contributions to American life and culture especially in the last decade debunking myths and common negative perceptions that were exacerbated by the 9 11 attacks and the War on Terror The term Arab American is often used to describe a broad range of people who are ethnically diverse and come from many countries including Lebanon Syria Palestine Jordan Iraq Saudi Arabia Yemen Oman United Arab Emirates Qatar Bahrain and Kuwait Some Arab Americans have been in the United States since the 1880s The terrorist attacks of September 11 2001 did serve to highlight the necessity for Americans to better understand the discrete nations and ethnicities of the Middle East This title documents the key aspects of contemporary Arab American life including their

many contributions to American society It begins with an overview of the immigrant experience but focuses primarily on the past decade examining the political family religious educational professional public and artistic aspects of the Arab American experience Readers will understand how this unique experience is impacted by political events both in the USA and in the Arab world Immigrant Narratives Wail S. Hassan,2014-04 Drawing upon postcolonial translation and minority discourse theory Immigrant Narratives investigates how key Arab American and Arab British writers have described their immigrant experiences and in so doing acted as mediators and interpreters between cultures and how they have forged new identities in their adopted countries Race and Arab Americans Before and After 9/11 Amaney Jamal,Nadine Naber,2008-02-27 Bringing the rich terrain of Arab American histories to bear on conceptualizations of race in the United States this groundbreaking volume fills a critical gap in the field of U S racial and ethnic studies The articles collected here highlight emergent discourses on the distinct ways that race matters to the study of Arab American histories and experiences and asks essential questions What is the relationship between U S imperialism in Arab homelands and anti Arab racism in the United States In what ways have the axes of nation religion class and gender intersected with Arab American racial formations What is the significance of whiteness studies to Arab American studies Transcending multiculturalist discourses that have simply added on the category Arab American to the landscape of U S racial and ethnic studies after the attacks of September 11 2001 this volume locates September 11 as a turning point rather than as a beginning in Arab Americans **Sajjilu Arab American** Louise Cainkar,Pauline Homsy Vinson,Amira Jarmakani,2022-08-04 Both a summative description of the field and an exploration of new directions this multidisciplinary reader addresses issues central to the fields of Arab American US Muslim and Southwest Asian and North African SWANA American studies Taking a broad conception of the Americas this collection simultaneously registers and critically reflects upon major themes in the field including diaspora migration empire race and racialization securitization and global South solidarity The collection will be essential reading for scholars in Arab SWANA American studies Asian American studies and race ethnicity and Indigenous studies now and well into the future Contributors include Evelyn Alsultany Carol W N Fadda Hisham D Aidi Nadine Naber Ther Pickens Steven Salaita Ella Shohat and Sarah M A Gualtieri **Citizenship and Crisis** Detroit Arab American Study Group,2009-07-02 Is citizenship simply a legal status or does it describe a sense of belonging to a national community For Arab Americans these questions took on new urgency after 9 11 as the cultural prejudices that have often marginalized their community came to a head Citizenship and Crisis reveals that despite an ever shifting definition of citizenship and the ease with which it can be questioned in times of national crisis the Arab communities of metropolitan Detroit continue to thrive A groundbreaking study of social life religious practice cultural values and political views among Detroit Arabs after 9 11 Citizenship and Crisis argues that contemporary Arab American citizenship and identity have been shaped by the chronic tension between social inclusion and exclusion that has been central to this population s experience in America According to the landmark Detroit

Arab American Study which surveyed more than 1 000 Arab Americans and is the focus of this book Arabs express pride in being American at rates higher than the general population In nine wide ranging essays the authors of *Citizenship and Crisis* argue that the 9 11 backlash did not substantially transform the Arab community in Detroit nor did it alter the identities that prevail there The city's Arabs are now receiving more mainstream institutional educational and political support than ever before but they remain a constituency defined as essentially foreign The authors explore the role of religion in cultural integration and identity formation showing that Arab Muslims feel more alienated from the mainstream than Arab Christians do Arab Americans adhere more strongly to traditional values than do other Detroit residents regardless of religion Active participants in the religious and cultural life of the Arab American community attain higher levels of education and income yet assimilation to the American mainstream remains important for achieving enduring social and political gains The contradictions and dangers of being Arab and American are keenly felt in Detroit but even when Arab Americans oppose U S policies they express more confidence in U S institutions than do non Arabs in the general population The Arabs of greater Detroit whether native born naturalized or permanent residents are part of a political and historical landscape that limits how when and to what extent they can call themselves American When analyzed against this complex backdrop the results of The Detroit Arab American Study demonstrate that the pervasive notion in American society that Arabs are not like us is simply inaccurate *Citizenship and Crisis* makes a rigorous and impassioned argument for putting to rest this exhausted cultural and political stereotype

Postcolonial Theory and the United States Amritjit Singh, Peter Schmidt, 2009-11-12 At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in US culture have provided some of the most innovative and controversial contributions to recent scholarship *Postcolonial Theory and the United States Race Ethnicity and Literature* represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in US ethnicity

and race studies within both the history of American studies as a whole and recent developments in postcolonial theory
